

The Journey Home 5 Week Project

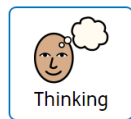

A visit from the Basingstoke Conservation Group will ignite the children's interest to research areas such as climate change and deforestation and what this means for many animals' habitats and their food chains. Class debates and challenges will see the children writing a retell whilst adding in their own thoughts and feelings and showing an understanding of where in the world the animals live.

Subjects:

Learning Values:

- Explain and justify their ideas and opinions, using precise language and communicating effectively
- Seek meaning through reflecting on their experiences and feelings, asking philosophical questions and challenging their own ideas
- Make informed choices and take wise decisions accepting responsibility for their actions
- Select, evaluate and use appropriate resources in carrying out their tasks and undertaking research
- Seek support when necessary, identify their strengths and weaknesses and know what to do to improve

Home Learning

Due Thursday 17th October

Create a habitat in a box! Children to choose an animal of their choice and research the habitat with their adult. We would love to display these at our end of project event.
