READ A BOOK

SUGGESTIONS FOR USE

These are only suggestions, so of course you don't have to use them if they don't work for your family!

- Laminate both the schedule(s) and the schedule cards. Use velcoins for ease of use.
- Hang the schedule in an easy to reach place for your child, either on the wall or by attaching to a clip-board.
- Let your child have as much input into how you use the schedule. The idea is to help them become more independent and create a routine that they're familiar with and comfortable with.
