

November 2019

Road Safety Day 2019

Dear Parents and Friends of Castle Hill,

The team at CHPS are committed to the vision of keeping roads safer through education, enforcement, encouragement and of course, enjoyment. With Road Safety week fast approaching, we thought what better way to share this message than to have our very own road safety day.

On Friday 22th November, we will be hosting our road safety day as part of the 'Your Time to Shine' campaign. The children will be invited to attend a range of road safety workshops throughout the day, to help them to become more conscious of the dangers of the road and to understand safer ways to travel. In addition, for a £1 donation, children are invited to come dressed in their brightest mufti clothing to further embed the message of being bright so be seen on the roads (especially in these dark winter months). The donations will be put towards additional resources to support children's understanding of road safety.

After the exciting workshops, our Junior Road Safety Officers and our very own Mr Ward - who is a part time PCSO- will be hosting a question and answer session with the children in each class, to share their expertise and to offer advice to ensure that all children feel confident in being safe of the roads.

We look forward to a fun filled (and very bright) day of learning about road safety. Thank you for your continued support.

Kindest regards,

The CHPS Team
