

Subject Vision 2018-2019

Subject: Art and DT

Leaders: A Lounton (GB)/ I Smart (RD)

To be reviewed September 2019

Art

At Castle Hill Primary School, our vision for art is for all children to recognise art's wider impact and how it helps them experience the world around them. During their time at Castle Hill Primary School, children will be exposed to the following skills: drawing and painting, printmaking, textiles, art and ICT, collage and sculpture. We aim to nurture and encourage children's love of the subject through their use of imagination, abstract thought and originality.

Design and Technology

Design and Technology is a creative, skilled and practical subject. Using originality and imagination, pupils will design and make products that solve real and appropriate problems. At Castle Hill Primary School, we aim to offer a challenging, meaningful and engaging Design and Technology curriculum, which is consolidated across all curriculum areas. Pupils will be exposed to the following skills: design, construction, cooking and nutrition, use of tools, exploring mechanisms, electrical systems, computing and evaluating existing products.
