

KNOW THE 5Cs

TO STAY SAFER

Carbon Monoxide

Do you know it's your landlord's job to make sure a carbon monoxide alarm is fitted in your home if needed?

Cooking

Barbecues and camping stoves are unsafe to use indoors and put you at risk of carbon monoxide poisoning.

Chimneys

Get yours swept and checked professionally if you're planning to light an open fire.

Clothing

Think about where you dry clothes. Clothes can get caught on electric heaters and burn.

Candles

Keep lit candles away from curtains and bedding and be sure to blow out when you leave the room.
