

Year 1 Science Space Dome  
Monday 1<sup>st</sup> July 2024

In our 'Space' topic next half term, the children will enjoy different activities such as finding out facts about Neil Armstrong and the moon. To celebrate the end of our 'Space' topic we have organised for the Science Dome to come into school. This will give the children the opportunity to explore space in an interactive way. The children will get to carry out exciting experiences such as the dome will turn into the inside of a space ship to take the children on a journey to the moon. This is then followed with footage of the surface of the Moon and stills of the Apollo capsule. The Moon landings are also shown with buggy and moon walk videos.

We are thankful to Fundraising Friends for their generous contribution which has significantly reduced the cost of the trip. We are therefore requesting a contribution of **£2.50 per child** for this activity. **Payment can be made via Scopay.** This amount is calculated assuming that each child takes part and contributes to ensure we raise sufficient funds. Please note should there be insufficient voluntary contributions, the school reserves the right to cancel or postpone the trip.

As we are a cashless school, please pay online via Scopay.com. If you would like a link code to set up an online payment account, please contact the school office. No cash please.

This trip will take place **Monday 1<sup>st</sup> July** during the school day so there is no need for parent volunteers.

If your child is in receipt of Pupil Premium funding this will be paid for from their allocation.

In order for us to be able to attend the trip, please can you select the tick box on the form via Scopay if your child is able to attend. Medical conditions can also be added here. Permission will need to be given for your child to attend via the form too.

We are looking forward to an exciting day. Please do not hesitate to contact us if you have any queries.

Yours sincerely,

Year 1 Team
