

Castle Hill School

Progress Report
Summer Term 2023

*This report has been compiled to provide all stakeholders with a comprehensive view of **whole school data** on a termly basis. The report includes charts to evidence the data and a summary of the key points. Further analysis is available on request including analysis of individual pupil progress and assessment data from previous years, providing evidence of a clear learning journey.*

Contents

- Appendices
 - Appendix 1 - Pupil Progress Document Template

The termly Progress Reports, when compared over the academic year, show the progress of the pupils at Castle Hill School. The Progress Reports follow the cycle:

- Autumn – Baselines and target setting
- Spring – Progress towards targets and interventions required
- Summer – Achievements and conclusions

Summer 2023 Headlines from EYFS, Castle Hill Level, Target Setting and MAPP/PiP Analysis

EYFS: The end of year data taken from Birth to 5 Matters reflects the varying needs of the pupils in EYFS. Pupil progress across all areas of Birth to 5 Matters indicates steady progression. Many of the pupils have spiky profiles. Where spikes and dips are indicated this directly relates to the pupils' physical, sensory or communication needs, MAPP targets are put in place to address these issues.

English: In KS1, progress in Reading and Writing is slightly higher than in Speaking and Listening, however, the small cohort of five pupils needs to be taken into consideration when making comparisons. In KS2, progress in Listening is slightly higher than in the other skills areas. In KS3, progress in Speaking, Listening and Writing is comparable, there is slightly lower progress in Reading, however, it should be noted that the baselines for pupils in Reading were higher at the start of the year than the other skill areas. In KS4, progress in expressive language skills, Speaking and Writing is slightly higher than in receptive language skills, Listening and Reading. In KS5, progress in Speaking, Listening and Writing is comparable. There is slightly lower progress in Reading, similar to KS3, it should be noted that the baselines for pupils in Reading were higher at the start of the year than the other skill areas.

Maths: In KS1, progress is slightly higher in Using and Applying and Number, than Space, Shape, and Measure. In KS2, progress is slightly higher in Space, Shape, and Measure and Using and Applying, than in Number. In KS3, progress in Using and Applying is slightly higher than in Space, Shape and Measure, and Number. In KS4, progress is slightly higher in Space, Shape and Measure than Using and Applying and Number. In KS5, progress in Space, Shape, and Measure and Using and Applying is slightly higher than in Number.

All pupils have made either progress within range or progress beyond range in English and Maths. There has been no regression by any pupils.

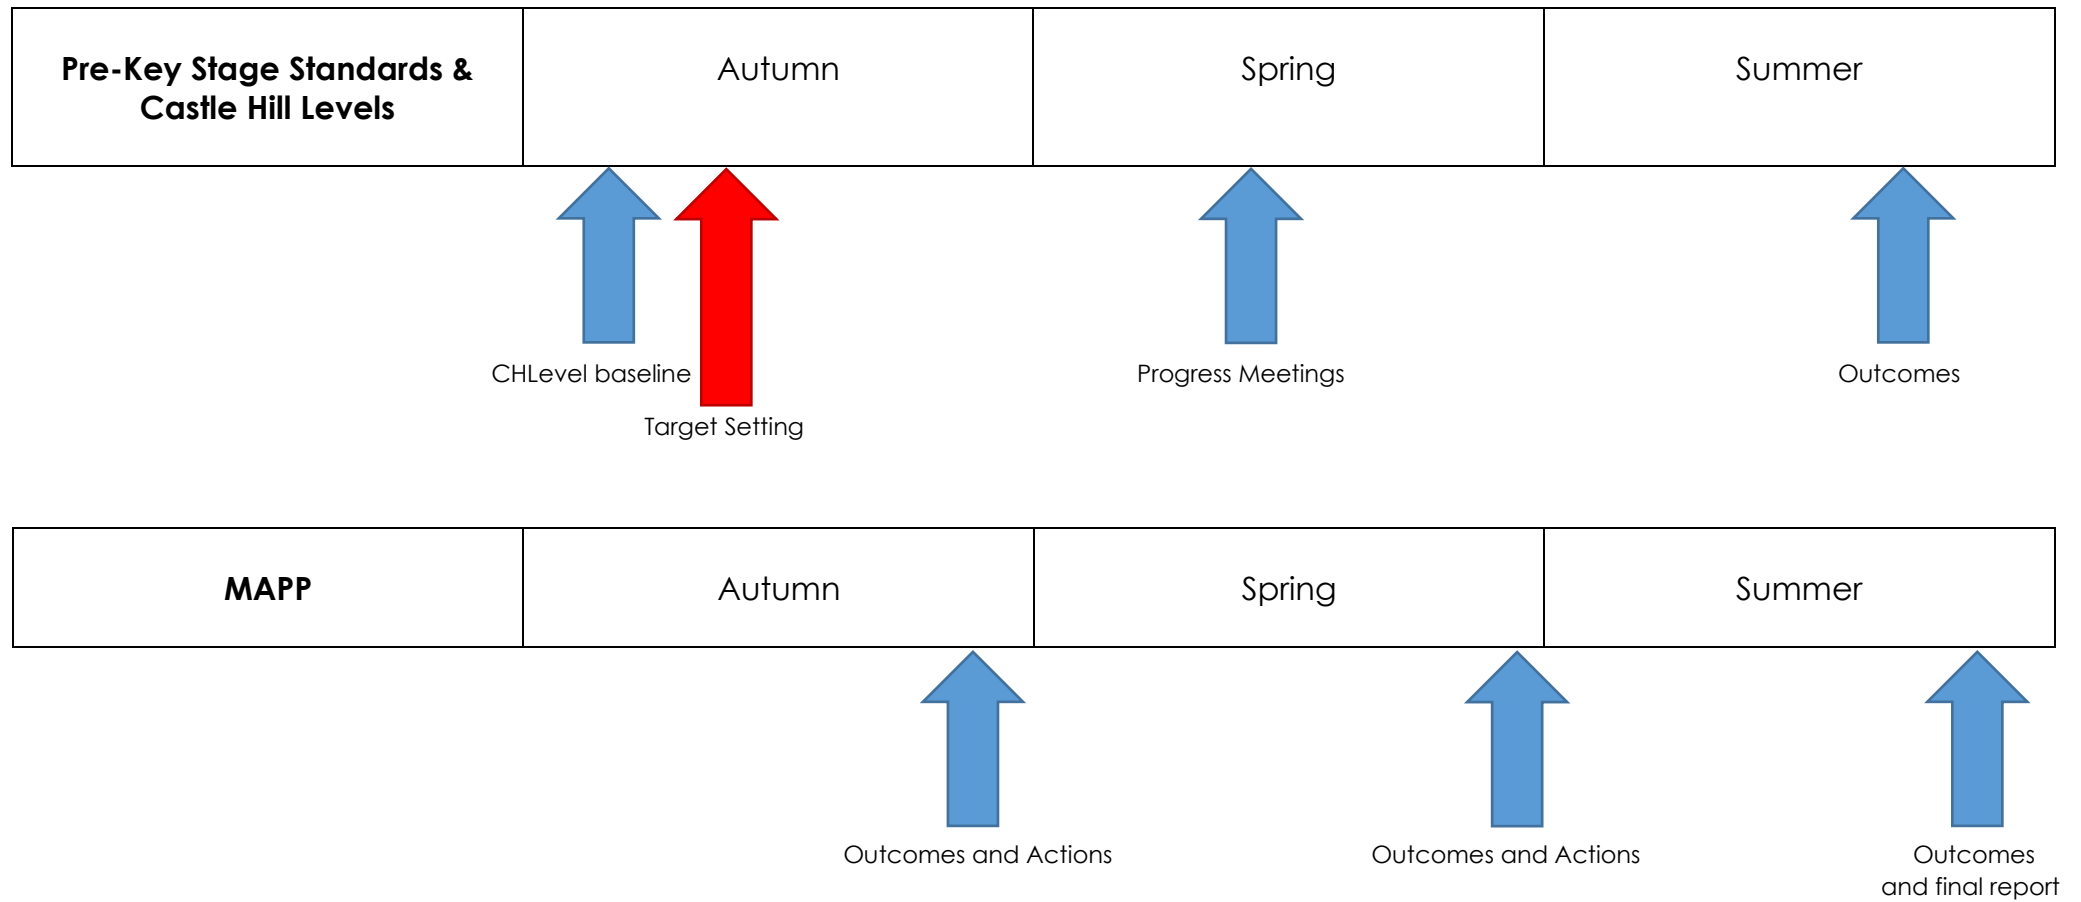

Target Setting: In English on average 79% of pupils met their end of year targets in 2023, compared with 70% in 2022, 78% in 2021, 49% in 2020 and 81% in 2019. In Maths on average of 71% of pupils met their end of year targets in Maths, compared to 74% in 2022, 80% in 2021, 40% in 2020 and 90% in 2019.

MAPP/PiP: (Mapping and Assessing Pupil Progress) is used to record progress relating directly to long-term EHCP outcomes. The use of PiP (Progress in Provision) targets ensure pupils progress towards the completion of MAPP targets, through small steps of progress. Termly individualised MAPP outcomes are analysed in a professional discussion with SLT as part of the ongoing assessment process. MAPP progress has remained consistent over the past three academic years. All pupils' individual MAPP learning journeys provide some evidence of progress. There is a negligible difference in progress dependent on gender, receipt of any Premium ever, or ethnicity.

Summer Assessment Report 2023 CHIP Outcomes

1. Priority: To apply headlines from the Summer 2023 Assessment Report																	
Intent: Raising performance outcomes and improving assessment processes through: <ul style="list-style-type: none"> - the application and quality assurance of Key Skill Pathways - PiP quality assurance and moderation - the development of progression guidance 																	
Implementation	Outcomes, progress, timeline	Lead Persons	Monitoring through														
- Key skill Pathways application to be quality assured for pupils engaged in subject-specific study. Case studies will track Pathways – Curriculum Guides - MTP – PiP documents – Evidence of work to provide evidence of application.	Existing Case Studies will continue. New Case Studies in development for 23-24 beginning with EYFS pupils Key skill pathways to be updated on a regular basis	KD / JA	Collated case studies and tracking evidence PiP documents														
- PiP/Pathway/CHL Moderation The PiP Moderation Working Party will provide an ongoing forum for discussion regarding the setting of PiP targets, as well as dedicated time within Teachers Meetings. The Working Party will quality assure the process through the tracking of targets from EHCP, to MAPP, to PiP, as well as act as clinic to provide support to teachers.	PiP/Pathway/CHL moderation sessions completed with teachers: <table border="1" data-bbox="840 651 1187 885"> <tr> <td>21.10.20</td> <td>20.10.21</td> </tr> <tr> <td>24.02.21</td> <td>19.01.22</td> </tr> <tr> <td>13.01.21</td> <td>02.03.22</td> </tr> <tr> <td>24.02.21</td> <td>17.05.23</td> </tr> <tr> <td>28.04.21</td> <td>27.09.23</td> </tr> <tr> <td>09.06.21</td> <td>18.10.23</td> </tr> <tr> <td>29.09.21</td> <td></td> </tr> </table>	21.10.20	20.10.21	24.02.21	19.01.22	13.01.21	02.03.22	24.02.21	17.05.23	28.04.21	27.09.23	09.06.21	18.10.23	29.09.21		KD / SB	Minutes of Working Party meetings Minutes of Teachers Meetings Amendment to practice for example differentiating PiP focus and context. - The development Castle Hill Level Progression Guidance To develop progression guidance, apply it to the summer 2023 Castle Hill Level attainment data and extend its application to summer 2024 CHL attainment data, making the process more refined. To further define and apply assessment steps within EYFS using the Birth to 5 Matters framework.	Application of Progression Guidance to assist in target setting process in autumn 2022 and spring 2023 progress towards targets meeting. Data shows the Progression Guidance Graph may have assisted in increasing challenge within the target setting process for 2022-2023. Application of Progression Guidance to assist in target setting process autumn 2023.	PH / SB / Phase Leads / Maths Lead (KD), English Lead (JA), in partnership with CW	Monitoring of Pupil Progress Documents Monitoring through the Summer 2023 Assessment Report and subsequent reports														
Impact: Improved assessment processes and increased opportunities for learning																	

Assessment Timeline

EYFS Birth to 5 Matters end of year assessment 2022-23

All pupils in the EYFS have been baselined using the Birth to 5 Matters areas of learning. All pupils, in both Early Years classes (EY1 and EY2) have a spiky profile, as shown in the two graphs below. Across the 16 pupils there is also a range of abilities, pupils in EY1 access a Sensory Curriculum, whilst pupils in EY2 predominantly have a diagnosis of Autism therefore Communication and Interaction is their primary need.

EY1 Birth to 5 Matters End of Year Assessment 2022-23

EY2 Birth to 5 Matters End of Year Assessment 2022-23

The following graphs show in detail the individual pupil profiles. Some of the developmental steps in specific areas are more challenging than others to achieve. It should be noted there are significant drops in levels that cannot be explained through sensory/communication needs of the individual pupils, where this is the case MAPP targets are in place to support further development.

E Progress 2022-23

F Progress 2022-23

G Progress 2022-23

H Progress 2022-23

I Progress 2022-23

J Progress 2022-23

K Progress 2022-23

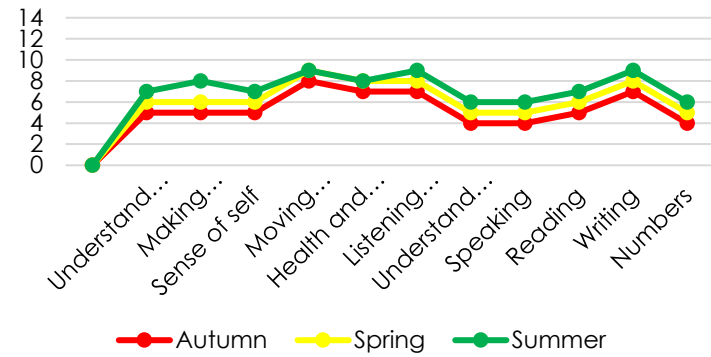

M Progress 2022-23

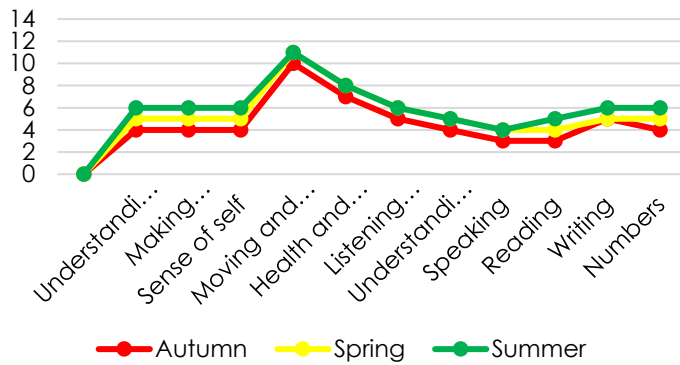

N Progress 2022-23

O Progress 2022-23

P Progress 2022-23

Q Progress 2022-23

R Progress 2022-23

Outcomes:

HEADLINE: The end of year data taken from Birth to 5 Matters reflects the varying needs of the pupils in EYFS and demonstrates all EYFS students are making progress; EY1 pupils predominantly access a Sensory Curriculum, whereas EY2 pupils predominantly have a diagnosis of Autism, their primary need being communication and interaction skills. Where spikes and dips are indicated this directly relates to the pupils' physical, sensory or communication needs, however MAPP targets are put in place to address these issues. Progress is then measured through the PiPs (Progress in Provision) documents. Individual outcomes and graduated responses are identified and applied through termly meetings with SLT (records available upon request).

Birth to 5 Matters is focused on progression in language and physical skills. For our EYFS pupils this can, at times, present as a barrier to demonstrating progress, as some of the developmental steps in specific areas are more challenging than others to achieve. **HEADLINE: The application of the Birth to 5 Matters framework will be reviewed, creating sub-levels of attainment within each range, mirroring those found in the Castle Hill Pathways.**

Castle Hill Level Progress 2022-2023

The data on the subsequent pages details each pupil's Castle Hill Level achievement at the beginning of the autumn term and at the end of the summer term (**autumn summer**). The data indicates the general progress of each Key Stage over the academic year. Further analysis and information on interventions can be found in the individual Pupil Progress documents. As a point of reference, please see the Castle Hill Level to P Level Conversion Chart below.

Castle Hill Level	P Level
CHL1i – 2ii	P1i - P2ii (the very early developmental levels)
CHL 3i – 3ii	P3i - P3ii (the early developmental levels)
CHL 4 - 5	P4 - P5
CHL 6 - 7	P6 - P7
CHL 8+	P8+

KS1-KS2 English Castle Hill Level Progress 2022-2023

Key Stage	Speaking					Listening					Reading					Writing				
	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9
KS1 (5)		3 3	1 1	1 1			3 3	2 2			2 2	1 3	2 2			1 1	3 3	1 2		
2 (5)		3 3	1 1	1 1			3 3	2 2			2 2	1 3	2 2			1 1	3 3	1 2		
KS2 (38)	4 3	18 19	10 9	5 6	1 1	4 3	19 18	8 8	5 6	2 3	6 5	15 16	11 8	4 6	2 3	4 3	17 18	11 9	6 7	1 1
3 (10)	1 1	4 5	3 3	2 2		1 1	4 3	4 4	1 2		1 1	3 3	5 4	1 2		1 1	4 4	4 4	1 1	
4 (10)	1 1	5 5	2 2	2 2			6 6	2 1	1 2	1 1	1 1	5 5	1 1	1 1	2 2	1 1	5 5	1 1	3 2	1 1
5 (8)	1 1	4 4	2 1	1 2		2 1	3 4	1 1	2 1		2 2	3 3	2 1	1 1			4 4	3 2	1 2	
6 (10)	1 1	5 5	3 3		1 1	1 1	6 5	1 2	1 1	1 1	2 1	4 5	3 2	1 2		2 1	4 5	3 2	1 2	

It is important to note that these tables demonstrate large steps of progress only, such as, when a pupil moves from one range of levels to another, for example, CHL 5-6 to CHL 7-8. The tables do not demonstrate each level move, for example, CHL 5 to CHL 6 nor each sub-level move, for example, CHL 5c to CHL 5a. For progress through the sub-levels refer to individual Pupil Progress documents, MAPP, and PiP documents. **HEADLINE: All pupils have made either progress within target set range or progress beyond target set range. There has been no regression by any pupils.**

Key

Red	= Negative change	Black text = Autumn 2022
Amber	= Progress within range	Red text = Summer 2023
Green	= Positive change beyond range	

Outcomes:

There are six Y1 pupils and eight Y2 pupils who are assessed using The Birth to 5 Matters framework, rather than Castle Hill Levels, as they are in EYFS, therefore, they are not included in the KS1 Castle Hill Level data. This assessment tool is used for students learning in EYFS as it reflects a holistic view of early child development appropriate to the needs of students at this stage.

HEADLINE: In KS1, progress in Reading and Writing is slightly higher than in Speaking and Listening, however, the small cohort of five pupils needs to be taken into consideration when making comparisons. In the previous academic year progress in all four skill areas in English was comparable.

HEADLINE: In KS2, progress in Listening is slightly higher than in the other skills areas, which is similar to the previous academic year, in which receptive language skills, Listening and Reading were slightly higher than in expressive language skills, Speaking and Writing.

KS3-KS4 English Castle Hill Level Progress 2022-2023

Key Stage	Speaking					Listening					Reading					Writing				
	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9
KS3 (27 25)	6 5	8 7	8 6	5 5	2 2	7 5	7 7	9 7	2 4	2 2	8 6	7 7	6 6	3 3	3 3	7 6	8 7	7 6	5 4	2 2
7 (11 10)	2 2	5 4	2 2	2 1	1 1	2 2	5 4	2 2	1 1	1 1	2 2	5 4	2 2	1 1	1 1	2 2	5 4	2 2	2 2	
8 (7 6)	3 2	2 2	1 1	1 1	1 1	3 2	2 2	1 1		1 1	4 3	1 1	1 1		1 1	4 3	1 1	1 1		1 1
9 (9)	1 1	1 1	5 3	2 4		2 1		6 4	1 3		2 1	1 2	3 3	2 2	1 1	1 1	2 2	4 3	2 2	1 1
KS4 (19)	2 2	6 6	5 3	5 7	1 1	2 2	6 6	3 3	6 6	2 2	2 2	6 6	4 4	3 3	4 4	2 2	8 6	3 4	4 5	2 2
10 (11)	1 1	2 2	5 3	2 4	1 1	1 1	2 2	3 3	3 3	2 2	1 1	2 2	4 4	1 1	3 3	1 1	4 2	3 4	2 3	1 1
11 (8)	1 1	4 4		3 3		1 1	4 4		3 3		1 1	4 4		2 2	1 1	1 1	4 4		2 2	1 1

Outcomes:

There is a decrease in the number of KS3 pupils, as one Y7 pupil transferred to a provision in a different authority and sadly one Y8 pupil passed away.

HEADLINE: In KS3, progress in Speaking, Listening and Writing is comparable. There is slightly lower progress in Reading, however, it should be noted that the baselines for pupils in Reading were higher at the start of the year than the other skill areas, with three pupils already working at CHL8-9 in autumn 2022.

HEADLINE In KS4, progress in expressive language skills, Speaking and Writing is slightly higher than in receptive language skills, Listening and Reading. In the previous academic year, progress between all four skill areas in English was comparable.

KS5 English Castle Hill Level Progress 2022-2023

Key Stage	Speaking					Listening					Reading					Writing				
	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9	CHL 1i-2ii	CHL 3i-3ii	CHL 4-5	CHL 6-7	CHL 8-9
KS5 (18 17)	3 3	7 5	7 7	1 2		3 2	7 6	6 7	2 2		3 3	7 6	5 5	3 3		4 3	6 6	8 6	2 2	
12 (7 6)		3 1	3 4	1 1			3 1	3 4	1 1			3 2	2 2	2 2		1	2 2	4 2	2	
13 (5)	1 1	2 2	2 1	1 1		1 1	2 2	1 1	1 1		1 1	2 2	1 1	1 1		1 1	2 2	2 2		
14 (6)	2 2	2 2	2 2			2 1	2 3	2 2			2 2	2 2	2 2			2 2	2 2	2 2		

Outcomes:

HEADLINE: In KS5, progress in Speaking, Listening and Writing is comparable. There is slightly lower progress in Reading, similar to KS3, it should be noted that the baselines for pupils in Reading were higher at the start of the year than the other skill areas, with three pupils already working at CHL6-7 in autumn 2022. This reflects challenge within the target setting process in the area of Reading, following a whole school focus on Phonics and the application of reading as a key skill, targets set may have been ambitious.

In the previous academic year, progress in all four skill areas in English was comparable.

Castle Hill Level Attainment Overview Summer 2023

Speaking Attainment Overview

Listening Baseline Overview

Reading Attainment Overview

Writing Attainment Overview

SSM Attainment Overview

U&A Attainment Overview

Nu Attainment Overview

Attainment Overview Analysis

As pupils move through KS1-KS4, the number of pupils working at CHL 6 and above increases, this demonstrates the cumulative acquisition of skills made through school. Generally, in the early Key Stages progress in receptive language skills is higher, as opposed to the later Key stages, in which progress in expressive language skills is higher.

The small cohort of KS1 (5 pupils) makes comparisons with other Key Stages less meaningful. There are six Y1 pupils and eight Y2 pupils who are assessed using The Birth to 5 Matters framework, rather than Castle Hill Levels, as they are in the larger cohort of EYFS, therefore, they are not included in the KS1 Castle Hill Level data. This assessment tool is used for students learning in EYFS as it reflects a holistic view of early child development appropriate to the needs of students at this stage.

In KS3, there is the greatest range of ability, which reflects the diverse needs of this cohort, whereas in the previous academic year, the greatest range of ability was found in Post 16.

The ability range within school fluctuates as pupils move through the Key Stages, which reflects the ever-changing profile of cohorts.

Progression Guidance

The CHL baselines for all pupils for all skill areas in both English and Maths have been analysed over the most recent two academic years (2021-2022 and 2022-2023) to determine the average number of sub-level moves. It can be seen from the trend line (dashed line) that the higher the Castle Hill Level baseline, the higher the average number of sub-level moves over the course of an academic year.

The graph above acts as progression guidance to inform but not direct the target setting process that each teacher completes with SLT, to ensure sufficient challenge. Individual pupil strengths and areas for development ultimately lead the target setting process.

As more data becomes available, the progress guidance progress will be further refined.

Targets Met Summer 2023

In response to the Rochford Review and the resulting recommendations regarding the use of P levels and Progression Guidance, Castle Hill School's target setting process was reviewed. A new assessment system of Castle Hill Levels was devised which is a developmental pathway for all pupils up to KS5, taking into consideration progression through The Birth to 5 Matters framework, Pre-Key Stage Standards, the Achievement Continuum, and Functional Skills for Entry Levels, as well as P levels as a point of reference for teachers.

As a result, end of year and end of Key Stage targets for Primary, Secondary and Post 16 pupils are set using Castle Hill Levels. The target setting process takes into consideration starting points and professional knowledge of the pupil to set appropriate challenging targets. For all pupils, target setting is completed in October, and it is quality ensured through a professional and structured meeting with a member of the Senior Leadership Team to ensure challenging and aspirational targets. The Progression Guidance Graph (p.24) is used to inform but not direct the target setting process that each teacher completes with SLT, to ensure sufficient challenge. Individual pupil strengths and areas for development ultimately lead the target setting process.

During the EHCP review process, end of Key Stage, long-term targets are set for each pupil, in conjunction with families and other professionals. From these targets medium-term MAPP targets are developed, which form part of the assessment process. From the MAPP targets, short, smart, PiP (Progress in Provision) targets are derived, which are updated on a frequent basis. Further evidence of progress can be found in the Evidence of Learning Files, Orange Observation Books, as well as in the MAPP assessments and PiP documents.

Progression towards these targets is evidenced through the recording of MAPP and PiP outcomes. For further guidance on this process please refer to the school website: Assessment, Progress and Planning page: <https://www.castlehillschool.org.uk/school-life/assessment-planning-and-progress/>

Case studies evidencing progress towards EHCP targets are available on request.

Targets Met 5-Year Comparison

Outcomes:

HEADLINE: In English on average 79% of pupils met their end of year targets in 2023, compared with 70% in 2022, 78% in 2021, 49% in 2020 and 81% in 2019. In Maths on average of 71% of pupils met their end of year targets in Maths, compared to 74% in 2022, 80% in 2021, 40% in 2020 and 90% in 2019.

KS1 is a small cohort of five pupils which needs to be taken into consideration when making comparisons.

The expected range of progress is 75%-79% which demonstrates challenge in the target setting. This will be compared in the next academic year to review the target setting process.

MAPP – Outcomes 2022-23

MAPP targets are set in line with the EHCP objectives. Targets are set for Communication and Interaction, Cognition and Learning, Social and Emotional, Physical / Sensory, and Transition. Each target is given a baseline score of between 1-10 on the Continuum of Skill Development. The scores are updated half-terminly to show progression. Progress is collated in Evidence of Work Files and Learning Journals. In addition, observation notes are also recorded in the orange books and used to inform progress.

Below is the Continuum of Skill Development.

CONTINUUM OF SKILL DEVELOPMENT

from dependent Prompting to independent									
Learners complete tasks independently									
The learner is provided with support throughout the task. Support may be in the form of physical, gestural or spoken help.		Support is still provided but there is a reduction in the level or frequency of prompting given.			The task is completed with minimal prompting. The learner performs independently but this needs consolidation in order to become consistent.			The learner completes the task independently. Encouragement may be given but no prompting relates directly to the task.	
1	2	3	4	5	6	7	8	9	10

from approximate Fluency to accurate									
Learners reach a level of mastery combining speed and accuracy.									
The skill is approximate and the learner's behaviour needs considerable shaping in order to accomplish the task.		The learner's performance is increasingly purposeful and coordinated, but it is not yet sufficiently accurate to effectively accomplish the task.			The skill is sufficiently accurate to meet the requirements of the task but may need refinement. The learner starts and completes the task with little faltering or hesitation.			The skill is smooth, swift and accurate. No further refinement is needed.	
1	2	3	4	5	6	7	8	9	10

from inconsistent Maintenance to consistent									
Learners maintain competency over time through repetition. They remember how to do a task after a break.									
The skill has been observed on a single occasion only.		The skill is observed on more than one occasion but only intermittently.			The skill is reliably repeated but may need refreshing after a break.			The skill is consolidated and maintained over time. It is remembered after a break.	
1	2	3	4	5	6	7	8	9	10

from single context Generalisation to many contexts									
Learners achieve mastery in different settings or contexts, with different stimuli or with different staff.									
The skill is demonstrated in a single setting or context, with limited stimuli or materials and with the same staff.		The skill is repeated but with some variation in setting, context, materials or staff.			The skill is frequently, but not yet consistently, demonstrated in different settings or contexts, with different stimuli or materials or with different staff.			Skills are reliably demonstrated in different settings or contexts, with different stimuli or materials and with different staff.	
1	2	3	4	5	6	7	8	9	10

MAPP Ideal Curve – this has been taken from end of year data for all types of learner

Although there will be variations in the rates of progress across each of the different types of learner the graph below is an example of the ideal curve that we would expect to see.

Prompting – the higher the line the greater the independence

Fluency – higher than the other 3 indicators would indicate initial understanding

Maintenance – slightly lower than fluency as the next step in progress would be to retain the skill

Generalisation – lower than fluency and maintenance, as the skill would need to be mastered in different environments

Data presented here assumes that the rate and frequency of MAPP target change is an indicator of progress.

Termly individualised MAPP outcomes are analysed in a professional discussion with SLT as part of the ongoing assessment process. The discussion focuses on each individual's Pupil Progress Document. This document includes their cumulative MAPP progress graph and progress towards end of year Castle Hill Levels, alongside a record of actions, interventions, and recommendations. An example Pupil Progress document is presented below, see also Appendix 1 (page 34) Pupil Progress Document Template.

Pupil Progress Document 2022-2023

Pupil	Class	Year	Key Stage
Pupil X	P2	5	KS2

To be completed: Start of the year End of Autumn End of Spring End of Summer

Current cumulative MAPP graph

The above graph shows an average of pupil progress towards their MAPP targets. As a result, there may be areas of strength and areas for improvement for the pupil that the graph does not show. Please record below areas of strengths and areas for improvement, along with any actions put in place.

	Highlighted areas of strength and for improvement	Responses, actions and interventions put in place	Outcomes
--	---	---	----------

Autumn	Pupil X made good progress in all areas of his learning. He has developed key relationships with familiar staff and is demonstrating realisation that he can communicate effectively his wants and needs through gesture. He has recently demonstrated realisation for photos representing transitions and is carrying out corresponding actions as a result.	Staff are conscious of assessing his regulation levels and readiness to engage, through his Total Communication Approach to express his wants and needs. He benefits from processing time and therefore class will continue to provide processing time when engaging in an activity.	Repetition of sessions and opportunities to process information continues to support Pupil X to develop further.
Spring	Pupil X is making great progress in all areas of development. His increased regulation has meant that he is demonstrating an increased readiness to engage in learning. He has developed secure positive relationships with staff and this shows in his readiness to engage and initiating of interactions.	Modelled learning and repeated sessions with opportunities for Pupil X to process the activity is beneficial to promote development in all areas.	Repeated sessions with predictable outcomes with plenty of processing time has enabled Pupil X to engage in a variety of activities such as parachute games.
Summer	Pupil X is making great progress in all areas. There has been times where regulation has been the focus but on most occasions, Pupil X is regulated and ready to engage with processing time. He is demonstrating understanding	Repeated sessions based on Pupil X's interests. Provide opportunities to anticipate and request 'more'.	

	that pictures represent destination, carrying out corresponding action. He continues to initiate interactions with staff.

Current progress towards end of Key Stage targets

Please complete the table below using Castle Hill Levels and RAG rate the termly progress.

Subject	Current attainment	End of year target	End of Key stage target	On track Autumn	On track Spring	On track Summer	Notes
Speaking	3.1b	3.1a	3.2c				
Listening	2.2a	3.1c	3.1b				
Reading	2.2b	2.2a	3.1c				
Writing	3.1c	3.1b	3.1a				
Shape, Space & Measure	2.2a	3.2c	3.2b				
Using & Applying	2.2a	3.1c	3.2b				
Number	2.2b	2.2a	3.1c				

	Is the pupil on track to meet targets? If not, please detail actions and interventions that have and can be put in place. E.g. engagement profiling, discussions with family, attendance intervention. * Complete this section with reference to the progress within the PIP document.
Autumn	Pupil X is on track to meet his targets. Please see PIP document for reference.
Spring	Pupil X continues to be on track to meet his targets. Please see PIP document for reference.
Summer	Pupil X is on track to meet his targets. Please see PIP document for reference.

	Does the pupil receive additional support and is this effective? Is there support that could be requested? E.g. use of therapy room
Autumn	Pupil X benefits from repeated sessions and a familiar routine with a range of cues to support his understanding of what's happening next including photos and songs. He is going to start attending swimming at KAL due to his love for water and support with regulation.
Spring	Pupil X continues to benefit from repeated sessions with plenty of processing time. Pupil X demonstrates a clear interest in swimming and staff are careful to assess his regulation levels to ensure that he is regulated on the day.
Summer	Pupil X is still accessing hydro, however, within school, as the water is warmer. He continues to benefit from repeated sessions with plenty of processing time.

Subject Intervention Monitoring

Are there any indicators that progress in a particular subject area is slow or challenged? Please highlight in the table below which subject area(s) this is related to. Indicators may include: CHL data, PIP turnover/direction, observation etc.

English (including Community Languages): Jayne, Catherine	RE/Collective Worship: Sophia	Geography/History: Dom
Maths: Kiersti	Science: Michael	Art, Drama and Dance: Kate, Katrina
PE: Alistair	ICT: Victoria	Music: Robyn
PSHE: Dan	Sensory: Zoe, Pippa	DT: Leanne

Do you require any advice and guidance from the Subject Leads regarding interventions for this student?

Yes	No
Comment:	Comment: Pupil X is still settling and developing engagement across all areas.

The graph to the left shows the MAPP progress compared over the past three academic years.

HEADLINE: MAPP progress has remained consistent over the past three academic years. All pupils' individual MAPP learning journeys provide some evidence of progress.

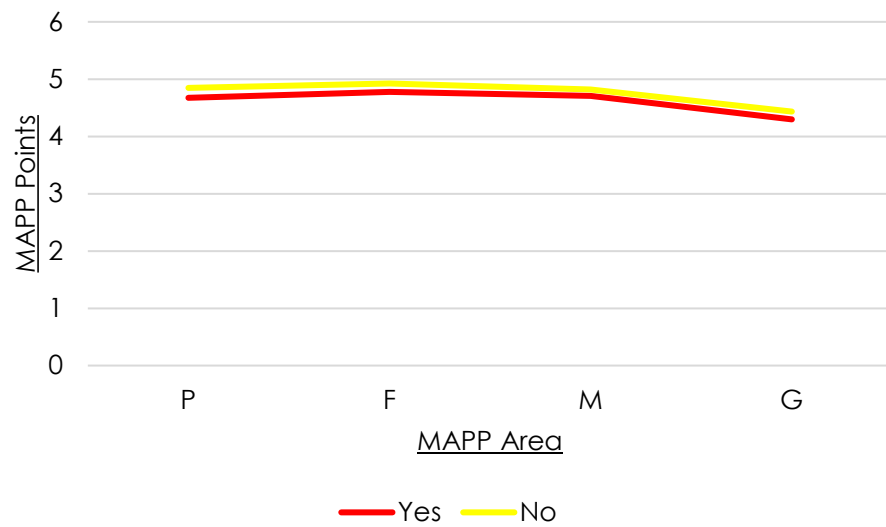

The graph to the left shows the yearly MAPP progress by gender.

HEADLINE: There is a negligible difference in MAPP progress dependent on gender.

The gender split in the data shows that both groups share near identical MAPP curves. There is a recognised 'gender gap' in education where females achieve higher than males. The document [Gender in education](#) gives an overview of these historic issues.

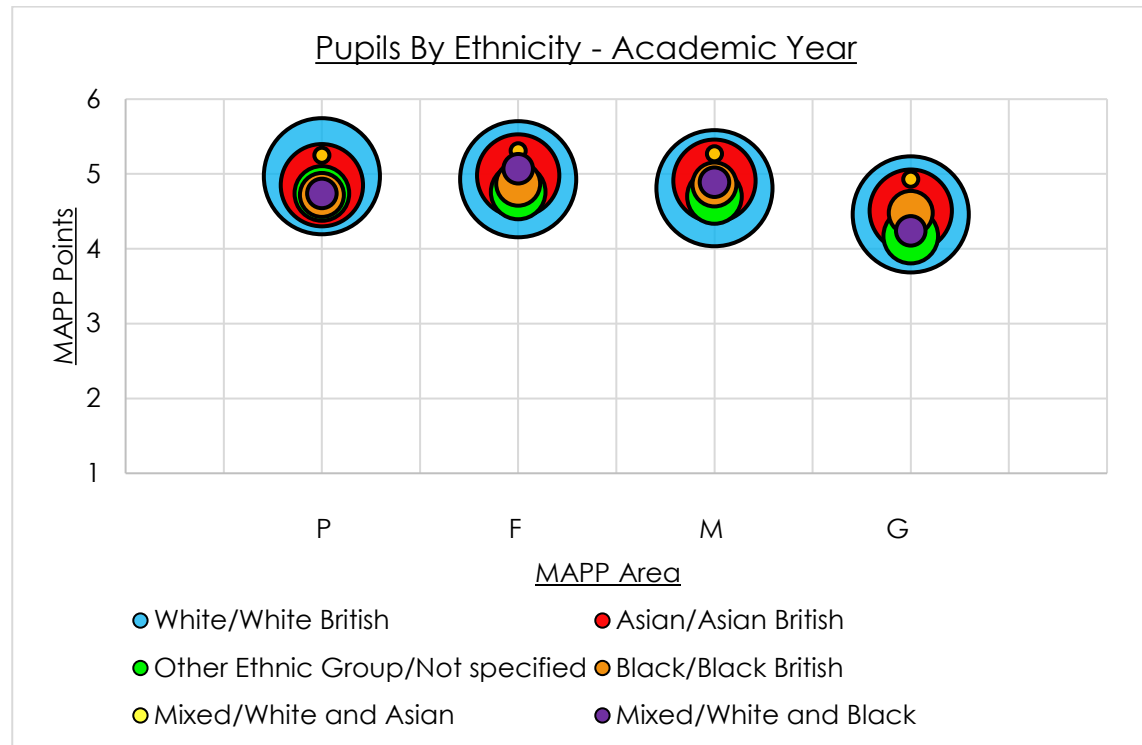

Pupils by Any Premium Ever - Academic Year

The graph to the left shows the yearly MAPP progress by pupils who have been in receipt of any premium (Pupil Premium, Pupil Premium Plus, Child Looked After funding), compared against the rest of the school population.

HEADLINE: There is a negligible difference in MAPP progress dependent upon receipt of any premium.

This shows that the pupil-centred curriculum and approach to targets and assessment, work alongside premium interventions to enhance progression towards their targets.

The above graph shows a comparison of yearly MAPP progress made by broad ethnic groups.

Outcomes:

The breakdown of progress in relation to ethnicity indicates that there is very little difference between all groups, White/White British (64 pupils), Asian/Asian British (32 pupils), Black/Black British (9 pupils), Mixed/White and Black (4 pupils) and The Other Ethnic Group/Not specified category (14 pupils). The group Mixed/White and Asian consists of 1 pupil, so the result is unreliable in terms of making comparisons. All the groups follow similar patterns of progress and are within 0.75 points of each other across all areas, showing that there is a negligible difference in attainment across ethnicity.

HEADLINE: There is a negligible difference in MAPP progress across ethnicity.

Accreditation Summary:

AQA Unit Award Scheme - Year 6, KS3 & KS4

51 pupils achieved accreditation for AQA units across the year.

A total of 427 units were achieved in total.

ASDAN Personal Progress - Year 11

7 pupils achieved accreditation for ASDAN Personal Progress units recognising two years of work.

ASDAN Personal Progress - Year 14

8 pupils achieved accreditation for ASDAN Personal Progress units recognising three years of work.
