### Year 5&6 Scientists

This week, the pupils in Mr Rose’s class have been conducting a science experiment, investigating how different variables can affect the shape and size of a shadow. The children worked really hard and looked like they had great fun at the same time!

### American Dinner Day – Thursday 16 Jan

On Thursday we will be having an American Dinner Day! On the menu will be ‘Build your own Burger’ where children can choose a range toppings for their burger such as cheese, bacon bits, onion rings, different sauces etc with fries and slaw, or Mac n Cheese. This will be followed by delicious American cookies or America’s favourite dessert - Ice cream!

Every child who stays for a school dinner on Thursday will receive a free American keyring, so why not join in with the fun on Thursday!

### Fantastic Behaviour Awards

The children who have impressed their teachers over the last week are:

Miss Spencer – Albie

Mrs Stoves – Lily C

Mrs Walker – Blanka

Mr Rose – Jacob H

### Mrs Walker’s Scientists

In science this term the children in Year 1&2 are investigating which materials can change shape. The children were like proper scientists, testing and recording which materials could bend, stretch, twist or squash.

Then these 2 boys then went to one of the independent tables in the classroom and used the words- squash, twist, bend and stretch when scoring different materials. Great work everyone!
