Mrs Walker's Scientists

Year1&2 children had another problem to solve in science this week - they had to find out which materials would be suitable to make a bridge to carry a toy car. They had great fun testing different materials and soon discovered that the materials that were rigid were the strongest.

Cinema Trip and Winter Gardens Trip

The children have been treated to two fantastic trips out of school this week! On Wednesday we walked to the Vue Cinema to see the Garfield Movie and yesterday we travelled to Morecambe to see 4 professional opera singers teaching us about opera singing and giving us all the chance to join in with the singing. Some children were even serenaded by the singers and given flowers!

Non-uniform day

We will be having a non-uniform day next Friday 29th November. We would like children to come wearing their own choice of clothing in exchange for bringing something for the Christmas Bingo raffle or the hampers. We are hoping for donations of chocolates, wine, brand new toiletries, new games or toys...etc. Thank you in advance for your generosity.

Fri 20 th December	Break up for Christmas

Leaf Man

These children have been looking at the signs of Autumn and reading the book 'Leaf Man'. They have collected leaves from the school grounds and have made some beautiful pictures. Well done children!

Best wishes,

C. Bright
