

# Catforth Primary School Newsletter

We have had a great week in school. This week has been great. I have taught in different classes and loved getting to know all our children better. The children have told me more of the things they love about school and ways we could also improve even further.

Have a great weekend.

Mrs Price

## Stars of the week

Lions	Vittori Cooper
Tigers	Rheo Clark
Jaguars	Eryn Dove
Panthers	Jolie CLark
Mrs Price's	Lincoln Moylenuex

## Lions

Lions Class are happy to report that our friend Mog has been found. She has been hiding in a few different places, including behind Miss Crossthwaites computer and under Mrs Prices desk! We have had fun playing hide and seek with her this week 😊

## Tigers

This week in Tigers class, we have been drawing our own colourful story maps that we are using to help us re-tell the story of Aladdin. In P.E, we have been continuing to create sequences in Gymnastics and in our Fundamental Skills lesson we have been learning how to throw, catch, roll, kick and bounce. In Forest School, we worked in teams to create our own dens. During this session, we had to show our skills of cooperation, resilience and problem-solving. In PSHE, Year 2 have been learning about how to keep themselves safe and they have learnt about what to do if they needed to call 999. Year 1 have continued to learn about the environment and how they can look after it. In Maths, Year 2 have been learning about money and have been learning how to add pounds and pence. Year 1 have been learning about the value of numbers and they have been solving problems. As part of our History learning, we visited our own school toy museum to investigate toys from the past.

## Jaguars

This week we have learnt about the inside of a laptop and how it works. We have done some fabulous writing about Paddington and how chaotic he is! In Science the children really enjoyed learning about the different types of teeth that humans have and created their own out of plasticine. The children have started to prepare their DT nightlights by creating their circuit with a working light to go inside in their design.

## Panthers

This week we studied different items that were used in the Anglo Saxon era. We learnt about life during this time, dressed up in typical Anglo Saxon clothing, looked at tools and discussed what they may have been used for.

In Maths we have continued learning about fractions including adding, subtracting and multiplying fractions. In English we created our new character ready for our additional chapters of Beowulf.

Star of the week: Jolie for consistent effort and showing respect in class.
