

Unlocking potential together  
in faith and love.

Year 1  
Spring Term 2026

Penguins, Possums & Pigs!

### Curriculum Enrichment

Visit Animal Oasis in  
Milnthorpe

### Maths

As Mathematicians, we will continue to count and discuss place value, we will investigate mass, revisit 2D and 3D shapes, continue to build our knowledge of money and begin to learn about multiplication and division.

### English

As readers and writers, we will write sentences which will include capital letters, full stops and finger spaces. We will apply our phonic knowledge to sound out our own words.

### Science

As scientists, we will learn to identify and name a variety of common animals. We will sort common animals that are carnivores, herbivores and omnivores. We will work scientifically by comparing and grouping animals.

### PSHE

As caring community members, we shall look at the people who work in our community. We will also be learning about where money comes from, what it is used for and how to keep money safe.

### DT

As designers, we are going to look at local buildings to help us understand what buildings are made from and how they are strengthened. We will explore making our own structures using a variety of joins.

### RE

As theologians, we will retell stories we hear, ask and answer questions about bible stories, understand how some people feel after encountering Jesus and reflect on the things we hear.

### Geography

As geographers, we will be focusing on hot and cold places around the world; where they are, the difference between them, what the weather is like and what type of animals live in these places.

### Computing

As computer scientists, we will be learning what the word 'technology' means and identifying what technology is using in school, our home and our community.

### PE

As athletes, we will continue to develop our fundamental movement skill of underarm throwing through a range of games. As gymnasts, we will balance, travel, jump and create sequences.
