

Maths

As Mathematicians, we will continue to count and discuss place value, we will investigate mass, revisit 2D and 3D shapes, continue to build our knowledge of money and begin to learn about multiplication and division.

Unlocking potential together
in faith and love.

English

As writers, we will continue to practice writing sentences where we sound out each word, separate words using finger spaces and end with either a full stop, question mark or full stop.

RE

As theologians, we will retell stories we hear, ask and answer questions about bible stories, understand how some people feel after encountering Jesus and reflect on the things we hear.

Year 1

Spring 2

Growth and Green Fingers

Curriculum Enrichment

Nature walk around the local area.

Science

As scientists, we will learn to identify and name a variety of common and wild garden plants and trees. We will identify and describe the basic structure of a plant. We will go on a nature walk in the local area and identify plants we find.

Geography

As geographers, we will be learning what land, sea and coasts are. We will learn about the four countries of the UK and the seas around these countries. We will locate Morecambe on a map and discuss the physical and human features.

PSHE

As caring community members, we shall talk about how to recognise how others are feeling and share our own feelings. We will discuss how different types of behaviour can make others feel and how some behaviour can lead to our bodies or our feelings being hurt.

Computing

As computer scientists, we will be learning about coding this half term. This will involve us learning lots of new vocabulary to be able to talk about the algorithms we will be writing.

PE

As athletes, we will continue to develop our fundamental movement skill of underarm throwing through a range of games. As gymnasts, we will balance, travel, jump and create sequences.

DT

As designers, we have the challenge to design and make a fruit kebab. To do this we shall think about what we already know about fruit and use this information as we design and make our own fruit kebabs. We will also be learning how to make food hygienically.
