

Maths

As mathematicians, we are going to develop our skills in addition, subtraction, multiplication and division. This will include the introduction of decimals. We will also be expanding our knowledge of the properties of 2D and 3D shape. We will be revisiting our learning on measures with a focus on time.

Unlocking potential together
in faith and love.

English

As readers and writers, we are going to explore play scripts together. We will be looking at how plays scripts are set out and the purpose of stage directions. We will have a go at writing and performing our own short plays. Later in the term, we will be exploring classic poetry and will be basing our work around 'The Spider and the Fly'.

RE

As theologians, we are going to learn about the events following Jesus resurrection at Easter. We will look at the events of Ascension Day and will move on to discuss the gifts of the Holy Spirit at Pentecost and how they help us to share God's love in the way we treat others. We will also be learning about the Holy Trinity.

Year 3 **Summer 1 Term 2025** **Healthy Humans**

Science

As scientists, we are looking at human and animal health and nutrition. We will work scientifically to investigate what we need to do to keep our bodies healthy, and to explore what would happen if we made unhealthy choices. We will be linking our learning to our work in PSHE and DT.

History

As historians, we will be learning about the British Empire. We will be thinking about if it was right for Britain to have an empire. We will be finding out about the countries that were part of the empire and how the cultures of these countries have influenced Britain today.

Curriculum Enrichment

Playground Proms Music
Workshop

Williamson Park Walk

Sports Day

PSHE

As caring community members, we will be learning about ways to keep ourselves healthy. We will be looking at health and hygiene as well as diet, exercise and self-care. We will also be looking at the way food is advertised and presented in the media. Our PSHE work will link closely to our Science topic.

Computing

As computer scientists, we are going to learn about branching databases and how data is stored.

Music

As musicians, we will be developing our pitch, rhythm and note reading skills by singing and using tuned percussion.

PE

As athletes, we are going to improve our balls skills and tactics through a selection of net and wall games. We will also be developing our outdoor and adventurous skills with Mr Lofthouse. PE this term will be on Tuesdays and Wednesdays.

Design & Technology/Art

As designers, we are going to be exploring healthy food and food hygiene. We will end by making a healthy snack.

As artists, we will be starting our topic on William Morris. This will stretch across the whole Summer Term.
