

Maths

As mathematicians, our focus this half term will be on securing and extending our understanding of place value, particularly decimals. In our statistics unit, we will learn about different ways to analyse data, including finding the mode, median and range. We will also practise converting between units of measure.

Unlocking potential together
in faith and love.

English

As readers and writers, we will link our learning this term to science and geography as we will study poems and imagery used to describe the rainforest and use this to support our own descriptive writing. We will then look at reading and writing stories from other cultures, focusing on stories set in the Amazon Rainforest.

RE

In RE this term, we will study the Sacrament of Confirmation and its links with scripture from the words of the prophets to the Acts of the Apostles. We will then consider what it means to be a disciple of Jesus in the world today and how the Sacrament of Confirmation helps Christians to be good disciples.

Year 5 Summer 1 Term 2026 Ancient and Amazing Americas

Science

As scientists, we will study and compare the life cycles of mammals, amphibians, insects, birds and plants. We will also look at the process of reproduction in some plants and animals, particularly focusing on different types of reproductive systems in plants.

Geography

In geography, we will be learning about the Amazon Rainforest. We will use a range of online and digital maps and atlases to study the location of the rainforest and the Amazon River. We will then study the physical and human geography of the Amazon rainforest, including a consideration of human impact on rainforest life.

Curriculum Enrichment

May Procession
Sports Day
First Aid Training (TBC)

PSHE

As caring community members, we will be learning about healthy relationships this half term. As part of this unit we will cover: what a healthy relationship can look and feel like, how to recognise an unhealthy relationship, knowing when physical contact is acceptable and unacceptable and knowing how to keep personal boundaries.

Computing

As computer scientists, we will be developing the skills of computer aided design, exploring the effect of moving points when designing. We will design and make plans for a 3D model and print it to ensure its accuracy.

PE

Our PE days this half term will be **Monday** and **Tuesday**. Mr Lofthouse will work with Year 5 to develop tennis skills and we will develop skills to play Creative Games.

Art

In our sketching and sculpture topic, we will be creating 3D models to represent Mary. We will look at sculptures created by the artist Anthony Gormley and then use ideas from his structures to inform our own planning.

Music

We will continue to learn and practise the ukulele this term and develop singing in a round.
Latin
As linguists we will practise and extend our previously learnt vocabulary in order to become more fluent whilst learning more about the history of Latin in Britain.
