THE CATHEDRAL

Catholic Primary School

YEAR 1

Class Newsletter

What a great first half term in Year 1! Everyone has settled into their new routine and we have had lots of great discussions in lessons.

In English, we have read the book 'Baby goes to Market'. This story contains repeated phrases which allowed everyone to quickly become familiar with the story. Through this story, everyone has written their first sentences within Year 1.

Year 1 have been introduced to Purple Mash during their Computing lessons. This is the program that everyone will use throughout their Computing lessons at Cathedral Primary School. We have explored how to log onto the website using a username and password. These details are in everybody's reading record so that the website can also be accessed at home.

We spend lots of time reading and listening to stories.

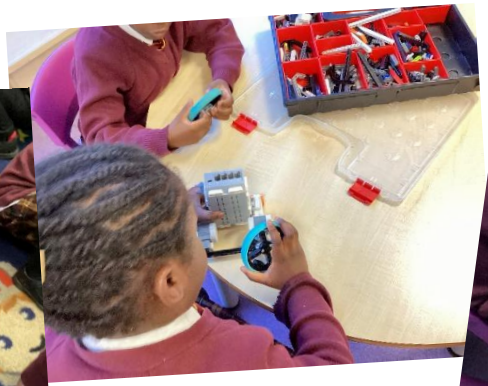

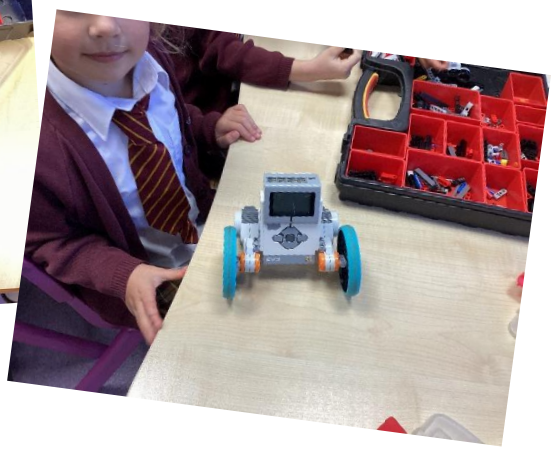

We have had lots of fun exploring the different provision in class. We have continued to develop skills learnt in Reception; fine motor skills, learning to share and how to take turns.

The children loved taking part in a Lego Building Workshop. They followed instructions and learnt how to build a moving model robot!

In History we learnt about how we have changed and how the world has changed. We looked at old schools and how different they are from our classrooms nowadays!

We have covered so many different skills in maths. From measuring, like you can see here, to counting with tens and ones, to adding and subtracting!

THE CATHEDRAL Catholic Primary School

Unlocking Potential Together in Faith and Love.

Within our RE lessons this half term, Year 1 have been learning about the story of Creation. We have recognised that all comes from God and that the Church teaches that God gave human beings the responsibility for caring for our world.

Year 1 came up with some great ideas for how they could look after our world such as litter picking, feeding birds and recycling. As a family you could talk about small acts you could do to look after the world.
