School Attendance is Important!

Research has proven that there is a high correlation between school attendance and academic performance and success. Absence from school is often the greatest cause of poor performance and achievement.

It is important to attend school every day because:

- Learning is a progressive activity; each day's lessons build upon those of the previous day(s).
- Reading material and completing work independently does not compensate for direct interaction with the teacher.
- Many classes use discussions, demonstrations, experiments and participation as part of the daily learning activities

World Book day

The children looked amazing in their world book day costumes. Thank you for your help and support in helping the children to get ready. The staff also made a real effort too. Each child will be bringing a voucher home to spend on a book and so many enjoyed bedtime story evening after school too.

In school, each class have completed book related learning.

The children had a wonderful time hearing stories after clubs as part of Bedtime story evening. Thank you to all the staff who gave up their time for clubs and then story time.
