

Wednesday 20th September 2023

Dear Parents and Carers,

I am writing to inform you that we have had to take the unfortunate decision to close the school for a second day tomorrow, Thursday 21st September 2023. We have been informed this afternoon that, despite best efforts, power is not repaired to the full school site and work is ongoing to repair this issue.

We apologise for any inconvenience caused in terms of childcare due to this unavoidable closure. We will of course keep in touch with you to keep you updated and to let you know our arrangements for Friday 22nd September.

As a result of the issues faced on the school site our Open Evening scheduled for Thursday 21st September has been rescheduled to **Thursday 28th September 6-8pm**. This information will be shared with local primary schools.

Due to the lack of power and data sources in school available currently we cannot set work for pupils on ClassCharts. Children can access Bedrock and Sparks maths platforms or Oak Academy.
