

# Half Term 1 House Captain's Blog

In the first half term we overcame many challenges and faced a lot of changes that our pupils embraced very responsibly. An example of one of the many changes is the 'Central Line'. This is a pathway that loops around the school directing students which way to go to help keep school year groups separate. There are multiple restrictions to ensure safety and prevent the spread of coronavirus, such as sanitising hands regularly and wearing masks whilst moving between classrooms.

However, although there have been many changes and challenges, I am sure many others found it almost a relief to be back and see friends (as well as teachers). Being able to socialise and see friends gives you a feeling of happiness and the ability to get work done.

Our school has been involved in numerous charity events and fundraisers. Each house has a chosen charity, and this year's Halton house charity is Animal Care. This is a local animal rescue charity which looks after unwanted and abandoned animals and rehomes over 800 animals each year in the North West of England. Members of Halton house have consistently donated to this charity every single day. Overall, Halton raised £37.62 pounds in the last half term!

I am really pleased to be appointed to the role of House Captain and I am keen to be there for pupils in my House and support the school, especially under the current circumstances.

I am excited to have a fresh term after having time to settle, and I hope everyone has an amazing new term!

Go on Halton, we can do this!
