

Coronavirus Public Information

The school continues to monitor news and guidance in relation to the Coronavirus outbreak.

The link below also contains specific advice to travellers returning from overseas.

<https://www.gov.uk/guidance/wuhan-novel-coronavirus-information-for-the-public>

The risk to individuals from coronavirus remains low. The main message from Public Health England is on personal hygiene and all students, staff and visitors are being encouraged to maintain good hand, respiratory and personal hygiene. The [NHS website](#) has more information about how coronavirus is spread and advises reducing risk through:

- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately
- wash your hands with soap and water often – use hand sanitiser gel if soap and water are not available
- try to avoid close contact with people who are unwell
- do not touch your eyes, nose or mouth if your hands are not clean

We will continue to monitor all updates and take full consideration of advice provided by Public Health England, the Department of Education and the Regional Schools Commissioner.

How can you stop coronaviruses spreading?								
If you need to cough or sneeze			You should wash hands with soap & water or hand sanitiser					
								
Catch it with a tissue	Bin it	Kill it by washing your hands with soap & water or hand sanitiser	After breaks & sport activities	Before cooking & eating	SCHOOL ETC. On arrival at any childcare or educational setting	After using the toilet	Before leaving home	
 Try not to touch your eyes, nose, and mouth with unwashed hands	 Do not share items that come into contact with your mouth such as cups & bottles	 If unwell do not share items such as bedding, dishes, pencils & towels
