

10th September 2026

Year 3 and Year 4 Multiplication Information Meeting

Dear Parents and Carers,

We are writing to inform you of our Year 3 and 4 Multiplication Information Meeting on **Wednesday 30th September at 9:00am**. The session will be held in a face-to-face session in our school hall and should last approximately half an hour. Please enter via the community entrance for this event.

This session will give parents the opportunity to learn how they can support their children with multiplication at home. We will also share useful tips, tricks and fun games that can be used to practise multiplication skills and build children's confidence and fluency.

We will also provide information about the statutory Multiplication Tables Check (MTC), which children in Year 4 take during the summer term. The check is designed to assess children's fluency in recalling multiplication facts and during the session, we will explain how the check works, what children can expect and how we prepare them in school. We will also share ways that parents can support their children at home through short, regular and enjoyable practice.

There will also be an opportunity within this session for parents to ask any questions regarding multiplication. If you have any questions prior to the session and need further information, we ask that you please email your child's class teacher.

Thank you for your ongoing support and please do not hesitate to get in touch should you have a further query.

Kindest regards,

Mrs Willocks and Mr Cooke
Year 4 and Year 3 Year Group Leads
