

A huge, warm welcome to Year 3!

The Year 3 children have had a fantastic start to the new school year and have adjusted incredibly well to their new classrooms and teachers. During the first week, the children have focussed on identifying different changes and used the book 'Help Your Dragon Deal with Change' to discuss how changes can be positive and seen as new adventures. The children used their inference skills to deduce information about the main characters in the story and gathered some fantastic vocabulary before creating their own dragons and writing character descriptions. They also wrote a letter of advice to the character Diggory Doo to suggest ways that he could adapt to changes. All the children have worked extremely hard, shown great amounts of resilience and have embraced new changes to their routines with great maturity. Congratulations to all the children in Year 3 for settling into your new classrooms so easily and starting the year with such positive attitudes. Mrs Farrar, Miss Wilson and Mrs Unsworth are very proud. Keep up the hard work!

Just a reminder, please can you ensure your child keeps all pencil cases and large bags at home as unfortunately we don't have the room in class to accommodate them. Homework will be given out every Friday and collected back in on the following Thursday.

If you have any questions or need any support, please do not hesitate to contact your child's class teacher by making an appointment or sending an e-mail.

Class 10: k.farrar@cvps.omegamat.co.uk

Class 11: h.wilson@cvps.omegamat.co.uk

Class 12: r.unsworth@cvps.omegamat.co.uk

Reading in Year 3:

Reading continues to be a focus in Year 3 and it is vital that your child has their reading book and reading record in school every day. This year, the children will continue to develop a love for reading, ask questions about texts, make inferences and develop their fluency and accuracy by taking part in weekly shared reading as a class, grouped guided reading sessions and 1:1 reads. Having their reading record in school ensures we can inform you what they are doing well at and what their next steps are so that you are able to support at home.

The reading challenge will continue, and we ask children to read to an adult at home a minimum of 5 times per week. Please listen to your child read, ask some questions about the book then sign their reading record. Any child who reads 5 times will be put into a raffle! If your child has read independently, please still sign the reading record and maybe ask them to give you a brief summary of what they have read as an alternative to listening to them read. Thank you for your continued support!

This half term, PE will be on Tuesday and Thursday twice weekly although this is subject to change. For this reason, please ensure your child always has their full PE kit in school and that it is labelled clearly with their name. During this half term, weather permitting, we may be completing some sessions outside so a warm hoodie and tracksuit bottoms may be helpful as well as their usual indoor kit.

If you have any questions or queries regarding this, please do not hesitate to contact your child's class teacher.

Year 3 Newsletter

Autumn Term 1

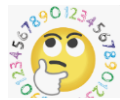

In English, the children will be looking at *Seal Surfer* by Michael Foreman. They will be focussing on grouping ideas into paragraphs, using a rich and varied vocabulary and using prepositions to express time, place and cause, as well as beginning to use inverted commas for direct speech. These skills will build up to the children writing a letter to Grandad from the main character. Spelling will also be a focus, particularly applying prefixes and suffixes such as ing, ed, er and est.

During Art sessions, the children will be looking at work by the artist Laura McKendry and exploring artwork based on cave art. They will be applying the skill of pressure lines, shading and precision in drawing to create their own final pieces and understanding how drawing techniques differ when light is applied, or shadows are formed.

In Maths, the children will begin by looking at the place and value of 3-digit numbers, including comparing and ordering numbers up to 1000 and count on in multiples of 50 and 100. They will also find 10 and 100 more or less from a given number and read and write numbers up to 1000 in numerals and words. Times tables will also be a focus this year, as the children should be able to recall multiplication facts for all times tables, up to 12, by the end of the year.

History will take the children back to the stone age and they will investigate Paleolithic, Mesolithic and Neolithic times and identify similarities and differences. They will be beginning to look at the changes in Britain from Stone Age to Iron Age.

In Geography, the children will be exploring climate zones, what they are and how they impact our earth. They will be studying Antarctica and explaining how and why it is so amazing!

In Science, the children will be developing their knowledge of animals including humans. They will be investigating the effect food has on the body and where the skeleton and muscles are in the body and what they do. They will be carrying out comparative and fair testing experiments to find out if skull circumferences are different according to gender.

In RE, the children will explore Christianity and discover why Christians refer to God as the Father and how they sometimes compare God to a loving parent.
