

School Council Newsletter

This term, the school council have been very busy. We have been helping to organise charity events, raising money for good causes, forging links with our local community and supporting our wonderful NHS and care staff. Take a look at some of our highlights from this term.

Children in Need

The school council helped to organise this year's Children in Need fundraiser. The school council decided on an 'Act your Age' fitness challenge which saw year groups completing numerous fitness challenges across the day with children completing a set number of challenges according to their age. This event raised over £400 for Children in Need and the children thoroughly enjoyed dressing up and getting involved to support this fantastic charity.

The Royal British Legion Poppy Appeal

The school council reps from each year group set up stalls at break times in November to sell a range of poppy merchandise to raise money for this worthy cause. They managed funds, did stock taking and worked in year group teams to ensure that Chapelford's Poppy Appeal 2020 was our best yet. We raised an incredible £451 for the Royal British Legion-well done school council!

Christmas Cards for NHS and Care Staff

We all know about the vital role that NHS and care staff have

played this year in helping our loved ones. As a small token of our appreciation, the school council organised for pupils to make Christmas cards which we then gave out to local NHS hospitals and care homes to show them our great thanks for their hard work this festive season.
