## Liveable Streets - Bow

The levels of air pollution on our streets (and outside our school) are unacceptably high, causing long-term health risks for our children. Surveys show over **16,000 journeys every day** are made by non-residents cutting through Bow, increasing the pollution we all have to suffer. Proposals have been put forward to invest in the local area to reduce rat-running (i.e. vehicles using our neighbourhood streets as cut-throughs) and improve road safety, air quality and public spaces. Significantly for Chisenhale parents, the changes include making the streets around our school safer for children by reducing traffic, improving cycle lanes and widening footpaths.

This is your chance to have your say. Please discuss with your children, and hopefully you'll be able to support the proposals and help improve air-quality in Bow for all our families. <https://talk.towerhamlets.gov.uk/lbow>
