

The theme for this year's Science Week was 'Growth'. Following what has been a turbulent time for all of us, we really wanted to get the children out of their classrooms to enjoy some hands on science activities. Children at Chisenhale visited farms, museums and local gardens. They took part in nature walks, observed local wildlife, planted seeds and went on mini-beast hunts. Back in our school garden, pupils carried out investigations growing mould and created wormeries, as well as dissecting different leaves.

*'We got to go outside and do fun activities!' - Ahlam, Broccoli Class.*

*'My favourite part of Science Week was doing a stretchy slime experiment.'* - Charlotte, Beetroot Class.

*'I found the flowers!'* - Adam, Basil Class.

*'In Science week, I liked it when we did clean hands and dirty hands and untouched, because we were learning about mould.'* – Ethan, Sprout Class.

*'It was fun digging worms for our wormery, there were so many of them! I can't wait to see how it turns out.'* - Grace, Rowan Class.

*'What I enjoyed most about the Science Museum was when we got to see how technology had grown and playing around with an old game called Pong.'* - Sam, Willow Class.
