Studyladder – Online Learning Platform

Dear Parents/Carers,

All children were given a home learning pack yesterday that included their log in details for Studyladder. If your child was not in school, you should have received their log in details via email. The children have logged on to Studyladder today in school and are able to access the personalised activities that they have been set by their Class Teachers.

This is a free resource for the children to use during normal school hours (9am-3.30pm, Monday-Friday). If your child tries to access this site outside of these hours, they will be able to complete three activities as part of the school subscription for free, these being classed as 'homework activities'. Outside of school hours, Parents/Carers will be asked to sign up for a free account and if more than the allocated three homework activities are attempted, you will be asked to pay a subscription. Please **do not** pay this. We want children to access Studyladder while we are closed and during the normal school hours. If your child wants to complete learning outside of these times, please refer to the home learning ideas sent home or use other free learning activities on websites.

If you have any problems with Studyladder, please speak to a member of staff tomorrow so that we can try to resolve this or contact the school on the teachers@chisehale.towerhamlets.sch.uk email address if we are closed.

Yours sincerely,

Sharon Taylor-Sezgin, Head teacher
