

# Understanding your thoughts about children's vaccines in Tower Hamlets

## General information

We are the Royal Society for Public Health (RSPH) and we help people lead healthier lives. One of the things we do is to ask people what they think about vaccines. We have already spoken to children and teenagers about their thoughts about vaccines. Now we want to speak to their families and people who or work with them.

## We need your help

If you are a parent or someone who supports or works with children or teenagers, what you have to say matters to us. Below you will find 3 different set of questions. Click on the link or use the QR Code to open the set that is relevant to you.

## Will you offer vaccines or health advice?

No. We only want to hear what you have to say, learn from your experiences and listen to your suggestions. We will not offer vaccines or health advice.

## Will my participation be anonymous?

Yes. We will not collect personal details such as your name, or address. It will be important to know how you support children and young people, that is why we ask about your relationship with the child. But that is all. No one will know who you are or what you said.

## Questions for parents, carers and families

If you are a parent or carer, please use this link or this QR code to access the set of questions.
