

Maths

This term we are focussing on multiplication and division. New for Year 5, we will be introducing multiplying 2 digits by 2 digits and using the 'bus stop' method for short division. We are then moving onto fractions.

Art

This term in art we are using Rob Ryan, the local author and illustrator of our core text, as inspiration for our art work. Rob uses a lot of stencil work and paper cuttings to create his illustrations and draws his own inspiration from 'the beauty of the world around him'.

English

Our core text for this term is 'The Kingdom Revealed' by Rob Ryan. We will be writing an alternative narrative ending to the story and developing our use of paragraphing, speech punctuation and constructing sentences with effective use of conjunctions.

RE

Our aim in RE is to focus on drawing connections on what matters most to Christians and humanists.

Topic

We will be doing a local area study. We will begin with map work and planning our fieldwork, before going out into the field to collect data. We will finally be evaluating and presenting our findings.

Year 5 - Autumn 2 Our Local Area

PE

Football

Pupils will improve their attacking and defending play, developing further knowledge of the principles and tactics in each.

Gymnastics

Pupils will learn a wide range of actions, build sequences and explore partner relationships while developing performance skills and considering the quality and control of their actions.

Science

Animals and Humans

- Describe the changes as humans develop to old age
- Recognise and explore key milestones in baby development
- Represent scientific data in graph forms
- Look for patterns in animal gestation periods and draw logical conclusions
