Spring Term

Working World

1	The 4 types of industry with examples of how all areas of creating an iPhone fit into different industries	--	Quaternary, Tertiary, Secondary, Primary	
2	The types of resources and the levels of world resource consumption. Whether we should be worried about resources	Analysis of resource consumption using a range of graphs	Natural resources, Overconsumption	
3	PROGRESS TEST - Section A – Knowledge and Skills			
4	PROGRESS TEST – Section B - Application			
5	Areas where fishing is the highest and the different methods of fishing	Map reading and locating areas of high levels of fish	Overfishing, Dredging, Trawling	
6	How the amount of fishing has changed over time and the causes of overfishing		Bycatch, Overfishing	SPW - Explain the main factors which have led to overfishing
7	Changes to UK industry and the factors which determine where Factories are located	Pie charts showing changes to UK industry	Industry	
1	FEEDBACK WORKSHOP			
2	What a sweatshop is and the advantages and disadvantages of sweatshops	Article: Why work in a sweatshop	Sweatshop	
3	The advantages and disadvantages of industry in China	Bar charts and line graphs to show the advantages and disadvantages of industry in China	Sweatshop	SPW – China's sweatshops
4	Identify the features of the tourist industry Explain the impact of tourism on people and the economy		Direct employment, Indirect employment	
5	FEEDBACK WORKSHOP			

	Declarative What will I know ?	Procedural What will I do ?	Disciplinary Literacy What key words will I speak ?	Assessment When will I be assessed ?
--	-------------------------------------------------	----------------------------------------------	----------------------------------------------------------------------	-------------------------------------------------------

Summer Term	Wasteful World	1	About the link between human population growth and animal extinctions and how this may lead to problems for the planet.	Line graph comparing human population and extinction	Anthropocene extinction	
		2	What plastic pollution is and the impacts of plastic pollution.		Plastic pollution Biodegrade Pollution	
		3	The impact of plastic on the ocean		Plastic Marine ecosystem Gyres	SPW - What is the most significant impact of plastic in the ocean?
		4	What a microplastic is, where microplastics come from and the impacts of plastic pollution	Map areas impacted using 4 figure grid references	Microplastic pollution	
		5	FEEDBACK WORKSHOP			
		6	What food waste is and the impacts of food waste		Food waste	
	1		The different agricultural practices which create food	Horizontal bar graph	Agriculture Hydroponics	SPW - Evaluate which method of agriculture would be best to provide food for the UK
	2		How changing diets can reduce the impacts of food waste		Vegan Food waste	
	3		PROGRESS TEST - Section A – Knowledge and Skills			
	4		PROGRESS TEST – Section B - Application			
	5		FEEDBACK WORKSHOP			
	6		Why some areas have more water available than others	Mapping areas of high and low water availability	Water availability Water scarcity Water surplus	
	7		How areas have protected water sources and how water is wasted	Line graph water supply and demand	Water demand supply
