

		<b>Declarative</b> What will I <b>know</b> ?	<b>Procedural</b> What will I <b>do</b> ?	<b>Disciplinary Literacy</b> What key words will I <b>speak</b> ?	<b>Assessment</b> When will I be <b>assessed</b> ?	
Autumn Term	Ring of Fire	1	What the 'Ring of Fire' is and the impacts of tectonic events in the 'Ring of Fire' from eyewitness accounts	4 figure and 6 figure grid references	Tectonic Plate, Ocean, Continent	
		2	The different plate boundaries and what happens on these boundaries when they collide, separate or pass each other			
		3	How to explain the formation and impact of Indonesian Volcanoes and the causes and effects of the Indonesian Tsunami	Article: Tectonic theory	Tectonics, Plate boundaries	<b>SPW</b> – Why was the Sunda Strait Tsunami so devastating
		4	The causes of the enhanced greenhouse effect and how climate change will impact the Pacific Islands		Greenhouse Gasses, Climate Change	
		5	The distinctive features of glacial landscapes in Patagonia and how humans use these landscapes. The impacts of climate change on these landscapes.		Glaciers	
		6	<b>FEEDBACK WORKSHOP</b> What El Nino is, it's causes and impacts and how climate change may make these greater	Map the global impacts of El Nino	El Nino, La Nina	
		7	The causes of water stress and the different causes of water stress. The causes and distribution of drought and famine and their impacts	Mapping the area of high and low water stress	Water Stress, Water Demand	<b>SPW</b> - Explain the causes of water stress
		1	What geothermal energy is and the advantages & disadvantages of using it. How farming and tourism exploits tectonic landscapes	Creating a pie chart of amounts of geothermal energy used	Geothermal energy, Sustainable, Renewable Energy, Agriculture	
		2	<b>FEEDBACK WORKSHOP</b> The different responses to climate change and how some areas may benefit from a changing climate		Climate Change, mitigation	
		3	How the islands in the South-West pacific are adapting to climate change			<b>SPW</b> - Evaluate the responses to climate change
		4	Where our energy comes from and how Costa Rica satisfies its energy needs in a 'green' and sustainable way.	Bar chart of co2 emission in Costa Rica	Renewable Energy, Fossil Fuels	
		5	<b>FEEDBACK WORKSHOP</b> The types of foods that are produced in the ring of fire and where these foods are shipped to	Map food miles around ring of fire	Ethical Consumerism	
		6	The power of rivers and how poor management of rivers can lead to social, environmental and economic impacts		Erosion, Deposition	
		7	How humans use glacial landscapes and whether these landscapes are under threat			

	<b>Declarative</b> What will I <b>know</b> ?	<b>Procedural</b> What will I <b>do</b> ?	<b>Disciplinary Literacy</b> What key words will I <b>speak</b> ?	<b>Assessment</b> When will I be <b>assessed</b> ?		
Spring Term	Asian Superpowers	1	The features of a global superpower and the differences between hard and soft power		Superpower, Hard Power, Soft Power	
		2	Identify the major built and natural features in China	Mapping human and built features of China	Urbanisation, Human Features, Built Features	
		3	<b>PROGRESS TEST</b> - Section A – Knowledge and Skills <b>PROGRESS TEST</b> – Section B – Application			
		4	How China's economy has changed over time and why this has happened. How China's economy will change in the future		Economic Development, EDC	
		5	Why China is investing in Africa and if this investment in a form of 'neo-colonialism'		Neo colonialism, Foreign Direct Investment	
		6	How China's population has changed over time and why. How China uses culture to have an influence worldwide	Describing population pyramids	Population, Ageing Population	
		7	Identify what territories China owns and who has authority over disputed territories		Disputed Territories	
		1	Whether China is a superpower and why		Super power, Global influence	<b>SPW</b> - Evaluate whether China is a superpower
		2	The built and natural features of South Korea. The history of South Korea.	Mapping natural and built features in South Korea	Built and natural features Urbanisation	
		3	<b>FEEDBACK WORKSHOP</b> South Korea's path to development, industrial change and how jobs changed		Line graph of South Korea's GDP	Industrialisation Development
4	South Korea's global cultural influence and how influential South Korea's Media exports are	Article: South Koreas media exports	Media Export	<b>SPW</b> - Evaluate South Korea's global influence		
5	Why South Korea's population is decreasing and why South Korea has an ageing population		Population Ageing population
