# Part A: Pupil premium strategy plan

## Statement of intent

At CtK we will aim to implement the Pupil Premium Fund to ensure that all disadvantaged students achieve the best quality education.

As a school rooted in Gospel values, we feel that the most effective strategies in ensuring a quality first education is provided for all students irrespective of a student's background or socio-economic status. We are an inclusive school, and we aim to develop all students to be knowledgeable, morally informed and compassionate young people. We have high expectations for all our students and therefore it is also our aim that disadvantaged pupils will achieve progress and attainment outcomes at least in-line with their non-disadvantaged peers at school, local and national levels.

To ensure there are no gaps in learning, we will provide a wide range of resources within and beyond the classroom to ensure support is identified, delivered and students make measured gains over time. Attendance to school is paramount to closing learning gaps and we will utilise an array of approaches that will ensure attendance of disadvantaged students improves and is sustained over time. Behaviour for learning is crucial and all disadvantaged students where this may be challenging will be supported by our pastoral team, external providers to work with each individual to support their talents and enable them to grow as young people.

Students at CtK have access to a broad and balanced curriculum allowing them to develop the knowledge, skills and experiences that they need to prepare them for the next stage of their education. All disadvantaged pupils will access high-quality personal development opportunities to ensure they are well-rounded individuals, able to exert positive change on their own lives, the lives of others and of the wider community.

To conclude, as recommended by the EEF, we use a tiered approach to support Pupil Premium pupils to access, and make excellent progress within, the whole-school curriculum. We use evidence-based support to drive school improvement and funding will always be deployed to support our disadvantaged pupils and not allow this to become a barrier to being able to achieve the very best outcomes CtK can provide.
