SUCCESSFUL: An education where imagination, curiosity and resilience enable us to ignite our learning.

CREATIVE: A shared belief that optimism, empathy and responsibility are the foundations for a respectful, safe and inclusive community.

HAPPY: Individuals who are ready to learn, practise being reflective, and are motivated to become champions.

CHS South Curriculum Area Framework for Learning – Years 7-11

SUBJECT	History
INTENT	<p>“A people without the knowledge of their past history, origin & culture is like a tree without roots” - Marcus Garvey Young people need a sense of history in order to understand themselves, their identity and the world around them. They need to be able to ask questions and evaluate the answers they receive – never settling for a shallow answer and pushing for a deeper explanation. History should inspire curiosity and a desire to never stop wanting to find out more.</p> <p>History gives students;</p> <ul style="list-style-type: none"> • The ability to research, filter and prioritise information. • A framework for questioning sources of information and evaluating which are trustworthy and reliable. • A solid knowledge of the culture on which the country is founded – why do we do what we do? <p>These prepare students for careers as.</p> <ul style="list-style-type: none"> • Lawyers • Reporters • Teachers • Police Officers • Diplomats • Writers • Doctors • Politicians • Social workers

Year Group	7					
Rationale/ Narrative	<p>Year 7 is a foundation year for students so that regardless of their background and previous experiences, all students have a basic grounding in key historical skills including the ability to place events in time and make educated guesses from sources. We aim to introduce students to key terminology that will be used regularly in History lessons across the whole of their learning journey and make our classrooms word rich in order to develop their oracy and vocabulary.</p> <p>Over the course of the year, students will unpick what it means to come from Manchester, and how historical migration has shaped Manchester overtime making it the multicultural city it is today. We also examine the importance of women, and how women throughout History have been pioneers, explorers, inventors, and leaders. Our aim is to engage students in the narrative and stories of History so that we are questioning where our roots come from enabling us to develop curiosity and a love of reading!</p>

Year Group	8					
Rationale/ Narrative	<p>From questioning our roots in Year 7, we aim to establish our roots in Year 8 by branching into History that has shaped our world and Europe in order to understand how it has arrived today. All students will have the opportunity to use historical evidence to construct opinions and learn to respectfully engage with other arguments whilst using a range of key terminology to examine how historians convey their arguments. Year 8 history is purposefully vibrant and creative in order to create pro-active citizens who do not want to repeat the mistakes of the past.</p> <p>Over the course of the year, students will investigate how Manchester was pivotal in the Industrial Revolution, Slave Trade and British Empire using historiography such as sources and interpretations to identify the positives and negatives of King Cotton and analysing whether the British Empire should be glorified. From this, students explore the 20th Century, linking their knowledge from Autumn term through Spring as we understand the role of the British Empire in the First World War. We also examine the role of women throughout this period, whilst also analysing the significance of critical and cataclysmic events such as the development of the Atomic Bomb and Civil Rights Movement.</p>

Year Group	9					
Rationale/ Narrative	<p>By Year 9, students have opted to deepen and develop their understanding of History; we will build on their grounding from Year 7 and 8 preparing and nurturing students and their aspirations in order to give them the foundation they will need to be successful at GCSE. We aim to explore medicine thematically taking time to understand how causes of illness, treatments and prevention were different through the Medieval Era, Renaissance, Industrial Period and Modern Era. Students will draw upon their chronological understanding from Year 7 in order to firmly place events in time whilst investigating how factors such as the Government, War, Individuals and Church all shaped society and in some respects – hindered progress. This is a fantastic opportunity for students to unpick new eras and challenge misconceptions that the past was always dirty.</p> <p>It is important that our students grow in Year 9 and take responsibility for their learning. They will understand the characteristics of a flourishing student of GCSE History and will learn to work independently both in lesson and at home, using revision as a tool to fill in their own personal learning gaps whilst practising note taking, reading, and writing essays. Students will mature and grow enormously across the year as they take strives to become better learners, making decisions about how they learn whilst realising that every learner is different. This foundation will enable them to blossom into Year 10 as the course changes and we begin to analyse more challenging concepts.</p>

Year Group	10					
Rationale/ Narrative	Year 10 History is exciting, political, and relevant; it is popular with students as they must think critically about how dictatorships form, why an entire country was able to be indoctrinated, and how the fear of the atomic bomb alongside communism and capitalism shaped an entire era. Through interesting lesson enquiries, discussion and debate students will be able to analyse interpretations from History, never settling for a shallow response but continually pushing for a deeper explanation. By examining language and tone, students will understand why history is always useful and how it can help us to understand the propaganda of the modern world. It is by Year 10 that students blossom, drawing from the roots they made in Year 9 and in lower school to maturely construct their opinions using a range of academic vocabulary. They know the world that they live in is complicated and are able to use their knowledge to justify why.

Year Group	11					
Rationale/ Narrative	<p>By Year 11 are students are confident in their knowledge and understanding of history, but we aim to broaden their narrative by transporting them to the Middle Ages and unpicking whether society a thousand years ago was really any different from today. Students think they are familiar with the stories of 1066, but through engaging lesson enquiries and the use of academic literature, we intend to impress that they are only now responsible and mature enough for the real narrative.</p> <p>By Year 11, students are ready to bloom. They must draw upon all their knowledge and skills that they have learned throughout their entire journey in History in order to be successful, creative and happy. Students understand that History is diverse and rich with different people trying to tell their own stories, and often leave with a desire to never stop wanting to find out more.</p>
