2. INTRODUCTION:

- 2.1. This policy has been developed to ensure that all adults in CHS South are working together to safeguard and promote the welfare of children and young people.
- 2.2. This policy describes the management systems and arrangements in place to create and maintain a safe learning environment for all our children, young people and staff. It identifies actions that should be taken to redress any concerns about child safety and welfare including protecting pupils and staff from extremist views, vocal or active, which are opposed to fundamental British values. All opinions or behaviours which are contrary to these fundamental values and the ethos of the school will be vigorously challenged.
- 2.3. The Headteacher, or in their absence, the authorised member of senior staff, Assistant Headteacher (Student Support), has the ultimate responsibility for safeguarding and promoting the welfare of children and young people.
- 2.4. Safeguarding and promoting the welfare of children and young people goes beyond implementing basic child protection procedures. It is an integral part of all activities, functions, the culture and ethos of CHS South. This policy complements and supports other relevant school and Local Authority policies.
- 2.5. Under the Education Act 2002 schools/settings have a duty to safeguard and promote the welfare of their pupils and, in accordance with guidance set out in 'Working Together to Safeguard Children July 2018' and 'Keeping Children Safe in Education September 2020', CHS South will work in partnership with other organisations where appropriate to identify any concerns about child welfare and take action to address them.

3. ETHOS:

- 3.1. CHS South aims to create and maintain a safe learning environment where all children and adults feel safe, secure and valued and know they will be listened to and taken seriously.

Our school is committed to the principles outlined in 'Working Together to Safeguard Children July 2018' and implements policies, practices and procedures which promote safeguarding and the emotional and physical well-being of children, young people and staff.

- 3.2. In line with the principles outlined in 'Keeping Children Safe in Education September 2020' the ethos at CHS South ensures that

"Safeguarding and promoting the welfare of children is everyone's responsibility. Everyone who comes into contact with children and their families has a role to play. In order to fulfil this responsibility effectively, all practitioners should make sure their approach is child-centred. This means that they should consider, at all times, what is in the best interests of the child."

- 3.3. The school is committed to supporting the delivery of effective early help through multi-agency working, a consistent application of the thresholds and the use of a single agency assessment. The Manchester Early Help Strategy is embedded into everyday practice and procedures when responding to children's needs and signposts children and families to appropriate preventative services. The children have access to appropriate curriculum opportunities, including emotional health and well-being, to support the development of the skills needed to help them stay safe and healthy, develop their self-esteem and understand the responsibilities of adult life, particularly in regard to child care and parenting skills.
- 3.4. Access to cross-curricular activities will provide opportunities to develop self-esteem and self-motivation and to help pupils respect the rights of others, particularly those groups who may be considered a minority.
- 3.5. CHS South will exercise diligence and prevent any organisation or speaker from using the school's facilities to disseminate extremist views or radicalise pupils and staff.

4. THE CURRICULUM:

- 4.1. All children have access to an appropriate curriculum which is broad, balanced and differentiated to meet their needs. This enables them to learn to develop the necessary skills to build self-esteem, respect others, defend those in need, resolve conflict without resorting to violence, question and challenge and to make informed choices in later life.
- 4.2. Children and young people are encouraged to express and discuss their ideas, thoughts and feelings through a variety of activities and have access to a range of cultural opportunities which promote the fundamental British values of tolerance, respect, understanding and empathy for others. There is access to a range of extra-curricular activities, information and materials from a diversity of sources which not only promotes these values but supports the social, spiritual, moral well-being and physical and mental health of the pupils.
- 4.3. Personal Health and Social Education, Citizenship and Religious Education lessons will provide opportunities for children and young people to discuss and debate a range of subjects including lifestyles, forced marriage, family patterns, religious beliefs and practices and human rights issues.
- 4.4. CHS South takes account of the latest advice and guidance provided to help address specific vulnerabilities and forms of exploitation e.g. CSE, Radicalisation and Extremism,

Forced Marriage, Female Genital Mutilation, Peer on Peer abuse and serious youth violence.

- 4.5. All pupils know that there are adults in the school whom they can approach in confidence if they are in difficulty or feeling worried and that their concerns will be taken seriously and treated with respect.

5. ATTENDANCE & EXCLUSIONS:

- 5.1. CHS South views attendance as a safeguarding issue and in accordance with the school's Attendance Policy, absences are rigorously pursued and recorded. The school, in partnership with the appropriate agencies, takes action to pursue and address all unauthorised absences in order to safeguard the welfare of children and young people in its care.
- 5.2. The Attendance Policy identifies how individual cases are managed and how we work proactively with parents/carers to ensure that they understand why attendance is important. In certain cases, this may form part of the Early Help Strategy or a Parenting Contract.
- 5.3. We implement the statutory requirements in terms of monitoring and reporting children missing education (CME) and off-rolling and understand how important this practice is in safeguarding children and young people.
- 5.4. The school will only place young people in alternative educational provision which is a registered provider and has been quality assured. Young people who require access to alternative provision will have a personalised learning plan designed to meet their needs. Their attendance will be monitored by CHS South in accordance with the School Register Regulations.
- 5.5. The designated person will be informed when a fixed term or permanent exclusion is being discussed and any safeguarding issues will be considered. Where it is felt that a child or young person is likely to be permanently excluded a multi-agency assessment will be instigated to ensure that there is improved understanding of the needs of the young person and their family and that the key agencies are involved.

6. KEEPING RECORDS:

- 6.1. CHS South will keep and maintain up to date information on children on the school roll including where and with whom the child is living, attainment, attendance, referrals to and support from other agencies. The school record will also include a chronology of any other significant events in a child's life.

 - Speak to the Designated Person or the person who acts in their absence
 - Agree with this person what action should be taken, by whom and when it will be reviewed
 - Record the concern using the school's safeguarding recording system

13. INFORMING PARENTS/CARERS:

- 13.1. Our approach to working with parents/carers is one of transparency and honesty and our responsibility is to safeguard and promote the welfare of all the children in our care. We aim to do this in partnership with our parents/carers. In most cases parents and carers will be informed when concerns are raised about the safety and welfare of their child. Parents and carers should be given the opportunity to address any concerns raised.
- 13.2. Parents and carers will be informed if a referral is to be made to the Multi Agency Safeguarding Hub (MASH) or any other agency.
- 13.3. Parents/carers will not be informed if it is believed that by doing so would put the child at risk. In such cases the Designated Person or Headteacher will seek advice from the First Response Team.

14. EARLY HELP

- 14.1. Early help means providing support as soon as a problem emerges at any point in a child's life. All staff should be prepared to identify children who may benefit from early help. Where a child would benefit from coordinated early help an early help interagency assessment should be made. The Safeguarding Team take a lead in the training and development of early help processes in the school and are able to support pastoral staff with this process.

The school is sensitive to differing family patterns and lifestyles and child-rearing patterns that vary across different racial, ethnic and cultural groups. Child abuse cannot be condoned for religious or cultural reasons.

- 23.1. Members of staff are likely to be asked to attend a child protection conference or other relevant core group meetings about an individual pupil and will need to have as much relevant updated information about the child as possible. A child protection conference will be held if it is considered that the child/children are suffering or at risk of significant harm.
- 23.2. All reports for a child protection conference should be prepared in advance of the meeting and will include information about the child's physical, emotional, intellectual development and well-being as well as relevant family related issues. This information will be shared with the parents/carers.

- 25.1. Any concern or expression of disquiet made by a child will be listened to seriously and acted upon as quickly as possible to safeguard his or her welfare.
- 25.2. We will make sure that the child or adult who has expressed the concern or made the complaint will be informed not only about the action to be taken but also where possible about the length of time required to resolve the complaint. We will endeavour to keep the child or adult informed about the progress of the complaint/expression of concern.

26. Child Practice Review / SERIOUS CASE REVIEWS:

- 26.1. The Manchester Safeguarding Children Board will always undertake a Child Practice review / serious case review when a child or young person dies (including death by suicide) and abuse or neglect is known or suspected to be a factor in their death. - 26.2. Find out if there are any lessons to be learnt from the case about how local professionals and agencies work together to safeguard and promote the welfare of children and young people.
- 26.3. Identify what those lessons are, how they will be acted on and what is expected to change as a result of the serious case review.

28. BOOKINGS:

- 28.1. CHS South operates a responsible booking protocol and will carry out appropriate checks and will exercise due diligence to prevent an organisation or speaker from using the school's facilities to disseminate extremist views or radicalize pupils or staff.

Appendix 1: Safeguarding Definitions:

The following definitions are from Working Together to Safeguard Children (July 2018)

Children	Anyone who has not yet reached their 18th birthday. The fact that a child has reached 16 years of age, is living independently or is in further education, is a member of the armed forces, is in hospital or in custody in the secure estate, does not change his/her status or entitlements to services or protection.
Safeguarding and promoting the welfare of children	Defined for the purposes of this guidance as: <ul style="list-style-type: none"> • protecting children from maltreatment; • preventing impairment of children's health or development; • ensuring that children are growing up in circumstances consistent with the provision of safe and effective care; and • taking action to enable all children to have the best outcomes.
Child protection	Part of safeguarding and promoting welfare. This refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm.
Abuse	A form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults, or another child or children.
Physical abuse	A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.
Emotional abuse	The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.
Sexual abuse	Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a

	child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.
Neglect	The persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: <ul style="list-style-type: none"> • provide adequate food, clothing and shelter (including exclusion from home or abandonment); • protect a child from physical and emotional harm or danger; • ensure adequate supervision (including the use of inadequate care-givers); or • ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.
Young carer	A young carer is a person under 18 who provides or intends to provide care for another person (of any age, except generally where that care is provided for payment, pursuant to a contract or as voluntary work).

THE SAFEGUARDING TEAM:

1. CHS South Safeguarding Team is comprised of the Senior Leadership Team, Pastoral Leaders and our Safeguarding Advisor (part time). All members of the team act on safeguarding/child protection issues brought to them. Safeguarding policy is overseen by an Assistant Head Teacher.
2. In the absence of the Safeguarding Advisor or a Pastoral Leader, the most senior member of staff in school will assume responsibility for any child protection matters that arise. The school has also identified other key members of staff, trained to act as deputy Designated Persons, should the aforementioned be off site.
3. The Safeguarding Team will co-ordinate action on child protection within the school. They will ensure that all staff, teaching and non-teaching (including supply staff) know who the Designated Persons are. They will ensure that all staff are aware of their individual responsibilities in relation to the safeguarding of children.
4. Where appropriate, the Designated Persons will liaise with the DPs of the school(s) attended by the siblings of the child causing concern.
5. The Designated Persons will keep a written record of any actions taken as a result of concerns raised (see below).
6. The Designated Persons will act as a source of advice and coordinate action within the school over child protection cases.
7. The Assistant Head responsible for Safeguarding will ensure that the school's Safeguarding Policy is put on the agenda of the Governing Body once a year for discussion, monitoring, review and renewal.
8. The Governing Body authorises CHS South to carry out its responsibilities as outlined in "Keeping Children Safe in Education" (September 2020).

Appendix 4: Responding to reports of sexual violence/harassment

There are four likely scenarios for schools and colleges to consider when managing any reports of sexual violence and/or sexual harassment.

1. Manage internally

- In some cases of sexual harassment, for example, one-off incidents, the school or college may take the view that the children concerned are not in need of early help or statutory intervention and that it would be appropriate to handle the incident internally, perhaps through utilising their behaviour policy and by providing pastoral support.
- Whatever the school's or college's response, it should be underpinned by the principle that sexual violence and sexual harassment is never acceptable and will not be tolerated.
- All concerns, discussions, decisions and reasons for decisions should be recorded (written or electronic).

2. Early help

- In line with 1 above, the school or college may decide that the children involved do not require statutory interventions, but may benefit from early help. Early help means providing support as soon as a problem emerges, at any point in a child's life. Providing early help is more effective in promoting the welfare of children than reacting later. Early help can be particularly useful to address non-violent harmful sexual behaviour and may prevent escalation of sexual violence.
- Full details of the early help process are in Chapter one of Working Together to Safeguard Children.
- Multi-agency early help will work best when placed alongside strong school or college policies, preventative education and engagement with parents and carers.
- Whatever the response, it should be under-pinned by the principle that sexual violence and sexual harassment is never acceptable and will not be tolerated.
- All concerns, discussions, decisions and reasons for decisions should be recorded (written or electronic).

3. Referrals to children's social care

- Where a child has been harmed, is at risk of harm, or is in immediate danger, schools and colleges should make a referral to local children's social care.
- At the referral to children's social care stage, schools and colleges will generally inform parents or carers, unless there are compelling reasons not to (if informing a parent or carer is going to put the child at additional risk). Any such decision should be made with the support of children's social care.
- If a referral is made, children's social care will then make enquiries to determine whether any of the children involved are in need of protection or other services.
- Where statutory assessments are appropriate, the school or college (especially the designated safeguarding lead or a deputy) should be working alongside, and cooperating with, the relevant lead social worker. Collaborative working will help ensure the best possible package of coordinated support is implemented for the victim and, where appropriate, the alleged perpetrator and any other children that require support.
- Schools and colleges should not wait for the outcome (or even the start) of a children's social care investigation before protecting the victim and other children in the school or college. It will be important for the designated safeguarding lead

(or a deputy) to work closely with children's social care (and other agencies as required) to ensure any actions the school or college takes do not jeopardise a statutory investigation. The risk assessment as per paragraph 275 will help inform any decision. Consideration of safeguarding the victim, alleged perpetrator, any other children directly involved in the safeguarding report and all children at the school or college should be immediate.

- In some cases, children's social care will review the evidence and decide a statutory intervention is not appropriate. The school or college (generally led by the designated safeguarding lead or a deputy) should be prepared to refer again if they believe the child remains in immediate danger or at risk of harm. If a statutory assessment is not appropriate, the designated safeguarding lead (or a deputy) should consider other support mechanisms such as early help, specialist support and pastoral support.
- Whatever the response, it should be under-pinned by the principle that sexual violence and sexual harassment is never acceptable and will not be tolerated.
- All concerns, discussions, decisions and reasons for decisions should be recorded (written or electronic).

4. Reporting to the Police

- Any report to the police will generally be in parallel with a referral to children's social care (as above).
- It is important that the designated safeguarding lead (and their deputies) are clear about the local process for referrals and follow that process.
- Where a report of rape, assault by penetration or sexual assault is made, the starting point is this should be passed on to the police. Whilst the age of criminal responsibility is ten, if the alleged perpetrator is under ten, the starting principle of reporting to the police remains. The police will take a welfare, rather than a criminal justice, approach.
- At this stage, schools and colleges will generally inform parents or carers unless there are compelling reasons not to, for example, if informing a parent or carer is likely to put a child at additional risk. In circumstances where parents or carers have not been informed, it will be especially important that the school or college is supporting the child in any decision they take. This should be with the support of children's social care and any appropriate specialist agencies.
- Where a report has been made to the police, the school or college should consult the police and agree what information can be disclosed to staff and others, in particular, the alleged perpetrator and their parents or carers. They should also discuss the best way to protect the victim and their anonymity.
- All police forces in England have specialist units that investigate child abuse. The names and structures of these units are matters for local forces. It will be important that the designated safeguarding lead (and their deputies) are aware of their local arrangements.
- In some cases, it may become clear very quickly, that the police (for whatever reason) will not take further action. In such circumstances, it is important that the school or college continue to engage with specialist support for the victim as required.
- Whatever the response, it should be under-pinned by the principle that sexual violence and sexual harassment is never acceptable and will not be tolerated.

76

- All concerns, discussions, decisions and reasons for decisions should be recorded

(written or electronic).

After recent government action to tackle the issues raised by testimonies given on the Everyone's Invited website, NSPCC has been commissioned to run the helpline which we will publicise in school and on our website – 0800 136 663. This number is for children and young people who are victims of sexual abuse, adult victims, parents and carers of victims and professionals working with children and young people. It is to report or share incidents which have happened both in and outside of educational settings.
