## Part A: Curriculum Music

At The Clarendon Federation, we use the Sing Up scheme to teach Music to all children from EYFS to Year 6. During lessons, children are exposed to all of the Musical strands identified in the Model Music Curriculum (MMC) and National Curriculum: singing, listening and appraising, composing and performing.

Sing Up also provides ample opportunities for teachers to implement whole class teaching of different instruments; this will become a target for development during the 2024-2025 academic year. Here at The Clarendon Federation, we have whole class sets of recorders, ukuleles, djembe drums and glockenspiels which enables children to play and explore a wide range of musical genres and units within Sing Up and beyond.

Within KS1, Sing Up units are organised into 3 and 6 lesson blocks; within each half term, a total of 6 lessons will be delivered to the children. All lessons are following the Sing Up progression scheme and assessment is tracked using corresponding outcomes/objectives on Insight Tracking.

Within KS2, similar to that of KS1, teachers will deliver 6 Sing Up lessons within a half term. However, within one half term, a first access block is in place for teachers to focus solely on the theory and physical playing of different instruments. Within KS2, we have teachers who particularly specialise in the teaching of djembes, ukuleles etc. and thus children are able to learn different melodies and tunes from experienced players. Progress is tracked using corresponding outcomes/objectives on Insight tracking and National Curriculum objectives.

## Part B: Extra Curricular music

At Clarendon, a choir club is offered within Lunchtimes which promotes a passion for singing and to greater explore different harmonies and performance techniques. Within the year 2023-2034, this was only offered to children within Year 5 and Year 6, however full school opportunities will be a target for the upcoming year.

Pupils participate in daily Times Table Rockstar sessions which enables fantastic listening and appraising opportunities for punk and rock genres of music. In addition,

songs are taught to teach different subjects within the curriculum including History and Geography.

Last year, Clarendon Junior School took part in a 'Music Extravaganza' where the whole school gathered on the playground to perform and share all of their musical learning throughout the year with the entire school as the audience. This enabled fantastic performance opportunities and taught children stage presence techniques and performance etiquette; this is something we will do this year again.

## Part C: Musical experiences.

We believe that Music is an integral part of children's development. Therefore, we endeavour to provide children with a vast amount of musical experiences. Within KS2, the whole school participates in a Singing/Music assembly every week. During this time, new songs are taught to children and performed. Moreover, in order to celebrate diversity and cross curricular links, a listening song is discussed and appraised each week that is linked to our 'Take One Themes'. For example, within our 'Take One Culture term', music pieces from Africa, India and Germany were appraised and celebrated. Additionally, within our 'Take One World term', the soundtrack for Sir David Attenborough's Frozen Planet series was our focus which allowed us to discuss the importance of powerful lyrics to tell stories and connect with people. Additionally, in order to prioritise the importance of inclusion, the children learn a Makaton song each term and practise the hand signs to accompany the singing; this is a valuable life skill that children can use beyond the school environment and enables all children to take part within the singing/music assemblies.

The Clarendon Federation also has a good partnership with Wiltshire Music Connect. Each year, we are given the opportunity to participate in an 'Activity Fund Project'. Previously children have participated in a song writing workshop and were able to watch a performance from the Army's national Saxophone band. We recently received a Music Mark award from Wiltshire Music connect for our excellence within Music.

At Christmas time, LKS2 perform a Christmas song concert to parents. Last year these were successful and more traditional Christmas carols were learnt which allowed

children to explore and listen to different styles of Christmas Music and lyrics; within previous years, more modern and contemporary musical songs have been explored and so this has enriched the children's understanding of religious connections to music and songs; this will continue next year.

## **In the future**

This is about what the school is planning for subsequent years.

1. We will continue to work with Wiltshire Music Connect and take part within The Activity Fund project.
2. We will run a choir club that gives all pupils within our school an opportunity to take part.
3. We will organise an end of year concert once again to celebrate our musical talents and excellence.
4. We will continue to explore different CPD opportunities for Non Music specialists.
