

Year 5 ART Knowledge Organiser – 3d art

Dream big or small?

Enquiry Question: What is our responsibility as an architect? How can we make a better world?

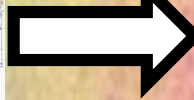

Techniques

Use sketchbooks to collect ideas about architecture

Drawing inspired by the Shoreditch sketcher

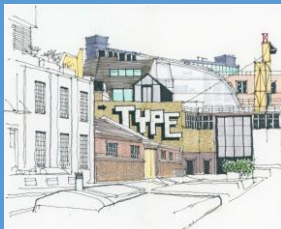

Design and make an architectural model

<u>Word</u>	<u>Definition</u>
Architect	An artist who creates building designs.
exterior	The outside of a building
environmental impact	The effect the building will have on the area of land it is in
form	Form is a three-dimensional shape. Form is used when referring to physical pieces of art.
function	The job or purpose of a piece.
Interior	The inside of a building

Artist inspiration-

“As architects, should we aspire to fill the world full of amazing beautiful buildings or do we serve ourselves and the planet better by designing small, modest, cleverly designed eco homes. Or can we do both?”

The Shoreditch sketcher

Sticky Knowledge and Key concepts

- Architects have a responsibility to design buildings which help make our world a better place, including thinking about the environmental impact of the buildings they design.
- We can make creative choices which both serves ourselves as individuals and the communities we belong to.
- We can use form, structure, materials, and scale to design innovative buildings.
- We can build architectural models to test out our ideas and share our vision.
