Sticky Knowledge and Key concepts

- ☐ That artists who create furniture are often called craftspeople or designers.
- ☐ That furniture is more than just practical – designers and craftspeople produce furniture which reflects the era or culture it is made in, or the personality of the maker.
- ☐ That as artists, we can use a variety of materials to design and make our own model chairs. The chairs we make can reflect our personality, and be enjoyed by others.
- ☐ There are certain requirements for a chair to be a chair (4 legs and a back?) – but we can be as imaginative as we like.
- ☐ We can think about the form, structure, material and texture, as well as the way the chair is constructed, to help us make our chair unique.
