

Year 3 - Autumn 1 - Homework Grid

Please ensure your child reads every day and record it in their reading record.
In addition, please choose 3 tasks from the grid below to complete. These can be done on a fortnightly basis.
We would love to see the children's work as they complete it and celebrate it in school!
If you have any questions, please do not hesitate to contact your child's class teacher.

Think about your class animal and research how it moves and what it eats. Create a poster to show what it eats, how it moves and why it needs the food it eats to survive. 	Build a volcano model and (with an adult) make it erupt using baking soda and vinegar. Take photos or draw what happened. 	Invent your own 'place between' for yourself to visit. You can draw it, paint it or make a 3D model of it. 
	Make your own Stonehenge model. It could be from Lego, biscuits, cardboard, etc. Take a photo or bring it to school to show. 	Design a bright, eye-catching 'Magic Show' poster to promote Abdul Kazam's magic show.
