A Level Results 2023 - Press Release

Cockermouth School students received their 2023 A Level results today and we are delighted that we have seen another very successful year for our Sixth Form students.

Headteacher, Mr Richard King, said *“Cumbrian schools are proud to serve our children, their families and the communities they come from. Results this year demonstrate yet again the resilience of Cumbrian youngsters and their dedication to their studies.”*

“We know that the majority of students will be pleased with their results and will have the grades needed to go onto to their anticipated destinations in September. Their results reflect their hard work, their dedication and the support they received from their teachers and families.”

“Today is about celebrating some of the incredible achievements of our young people. It is for this reason that we like to recognise the individual success stories below and congratulate all the young people on their achievements today and wish them all the very best for the future.”

Congratulations go to all our students who have performed exceptionally well; this year’s A Level results maintain the consistently high level of achievement from Sixth Form students at Cockermouth School. We are delighted that 19 students gained three or four A*/A grades and these grades cover the full range of subjects that we offer.

There were many exceptional performances by our students and particular congratulations go to Molly Brew who achieved 3 A* grades and Daniel Woodcock and William Vyner-Brooks who each achieved 3 A*s and 1 A grade.

We are delighted with the successes of all our students, the overwhelming majority of whom have secured a place at their university of choice, on a highly competitive apprenticeship programme or in the armed forces. University places have been secured at a range of institutions to study subjects such as Architecture at the University of Liverpool, Project Management Apprenticeship at Atkins, Astrophysics at the University of Edinburgh, English Literature and Creative Writing at Lancaster University and Primary and Early Years Education at the University of Cumbria.

We would like to thank the hardworking and dedicated staff who have taught students to enable them to achieve the best exam results they could. Much has also been done to support students both academically and pastorally, and we are very grateful for the continued support that we have received from parents who worked closely with us to ensure the very best for their children.

We wish all our students the very best in their future careers.
