

Review of Centre Assessed Marks

Information for Students

Marks awarded for centre assessed tasks will be given to you at least 5 working days before they need to be sent to the board.

If you miss deadlines this will not be possible.

Any concerns need to be discussed with your teacher

If you still feel there is an issue with the marks you have been awarded you must write to the Exams Team fully explaining the concerns

If you are happy with the explanation no further action needs to be taken

A full review of your marks will be carried out by another teacher

You will receive, in writing, the review of the marking

NOTE

- On reviewing marks your results may remain the same, go up or **go down**
- After submission to the examination board results are moderated by them and marks may again remain the same, go up or go down
