The Hunger Games

By Suzanne Collins

I must say, this book was ABSOLUTELY INCREDIBLE! I really enjoyed the dystopian vibe of the book, along with the engaging storyline that makes you never want to stop reading it. I'm going to be honest, before starting this book I didn't like reading, but when I started reading this it changed me.

The main plot of the story follows a girl called Katniss Everdeen who lives in a country called Panem. Within Panem, there are 12 Districts (previously 13) and the capital city called 'The Capitol'. Katniss Lives in District 12 with her mother and sister Prim (short for Primrose).

2 Tributes from each district are drafted to go into this absolute hell of a ride in the arena, and nobody knows who will come out triumphant. Do you have what it takes to take on 23 other people in a massive, deadly and perilous, every man for himself, Battle Royale?
