The Maze Runner by James Dashner

The book I have chosen to do a review on is The *Maze Runner* by James Dashner.

The book is about a character called Thomas who arrives in a lift called the 'box'. Thomas and about 30 other boys must survive in the maze, even sending some people, called runners, out into the maze to find an escape. The maze is a dangerous place and changes every night making it harder to find an escape.

This book is part of a series and is a recommended read. You can get lost in the plots and it feels like you are there with the characters. This book is an amazing read if you enjoy reading thrillers and adventure books.

The book is a really good choice to read, and I will certainly recommend it to everyone aged 13-15.
