Creating Positive Learning Environments

The early bird gets the grades!

Procrastination – the thief of time

"I'll start tomorrow"

"It's fine, I have plenty of time"

"I just need to get organised, then I will start studying"

When I should start?

When should I start revising?

As soon as possible.

How should I plan my time?

Use the revision clock to split up your time

Revision clock

Try 30 minute revision sessions to begin with and half the time of each activity.

What should my learning environment look like?

- A calm ordered space with no distractions.
- A space where they can lay out what they are working on.
- A space without their phone.
- If they find the quiet distracting classical music or a fan can help.

[Parent Resources - GCSEPod]

- 3- 5 minute video pods
- Check and challenge activities

- Proven to help your child learn, retain and recall all the information they need

How to find a Pod

Your child's school has set their exam boards so when you select a subject the content is filtered to what they need to know for their exam.
To get started your child selects the subject they want to study from the 'Browse Pods' section:

They can add or remove any subjects by clicking 'Manage Subjects' on the top right of the screen.

Within each subject is a topic list with key topics from that subject. Each subject has a topic and these are filtered down into titles, within each title is a pre-made playlist of Pods.
