

Remote Learning Expectations and Agreement for Parents

The following points outline the expectations for Remote Learning, including Live Meetings on Microsoft Teams.

- Live videos will always be in groups and never one to one.
- I will ensure my child is wearing suitable clothing (as well as everyone else in the household).
- I will ensure the device being used is in a 'public' living area e.g. living room. The internet should not be accessed from a bedroom.
- I will ensure that there is always an adult in the room for live meetings.
- Appropriate language will be used at all times (including everyone else in the household)
- I will expect the same level of behaviour from my child as is expected in school. I will support with behaviour during live meetings.
- Loaned devices will only be used for learning e.g. to access Microsoft Teams and the internet browser. No further software will be installed.
- I will not record, photograph, print screen, store or distribute video material without permission.
- I will provide my child with a dedicated learning space which will be kept as quiet as possible.
- I will assist my child in daily learning as this is a legal requirement. I understand that my child will be contacted each day by the school to check that they are engaging in and understanding their learning.
- I understand the school will record live teaching as good safeguarding practice for both pupils and staff. These recordings will not be distributed or used in any public way. They will only be viewed by other school staff if a safeguarding or behaviour issue arises.
