Lancashire County Council wants to join up the gaps in our existing network of footpaths and cycle routes and provide safer, direct and more convenient routes.

Everyone is invited to take part in a survey to help shape future plans for cycling and walking in Lancashire.

Lancashire County Council wants to join up the gaps in our existing network of footpaths and cycle routes and provide safer, direct and more convenient routes.

To help them, they are asking for feedback from across the county on current cycling and walking provision, including travelling to school. They want to know what you think the gaps are in the network and what facilities would enable you to walk and cycle more.

The survey will be available on the council's website until 5 May 2022.

The feedback will help the council produce local cycling and walking infrastructure plans. Additional design and feasibility work will be needed to take any of the proposed schemes forward.

You can find out more and take part in the survey
