

## We know Science is good when...

1. We can discover answers for ourselves. We can use trial and error, answer questions for ourselves and solve our own problems.
2. We use scientific vocabulary to explain ourselves.
3. We can talk, ask questions and share our ideas.
4. We can work practically.
5. We are engaged, excited and involved.
6. We are inspired, want to know more and teach others.
7. We can record what we have learnt in different ways.
8. We can use the outdoors to enhance our learning.
9. Teachers are confident about what they teach.
