

# Coppull St John's C.E. Primary School

## Online Safety Policy

T

Mission Statement

'We are growing and learning together in God's Love'

Coppull, St John's, School provides for all pupils and staff a caring, loving and happy environment where everyone is valued as a unique individual.

We aim to promote a love of learning, individual responsibility and a respect of others in a family atmosphere.

Christian values provide the key to the school ethos and the spiritual development of all in the life of the community, nurturing an understanding of the Christian faith.

We seek to create a partnership between home, parish and school, as together we lay the foundations which will prepare our pupils for entry into the wider community.

## **Introduction**

Children and young people today are using digital media to explore, connect, create, and learn in ways never before imagined. However, alongside these new experiences and opportunities, children can become exposed to potential risks. It is vital therefore that schools endeavour to teach children and young people to learn digital literacy and citizenship skills so that they can act responsibly and to use the internet in a better way.

Online safety encompasses Internet technologies and electronic communications such as mobile phones as well as collaboration tools and personal publishing. It highlights the need to educate pupils about the benefits and risks of using technology and provides safeguards and awareness for users to enable them to control their online experience. The school's online safety policy will operate in conjunction with 'Keeping Children Safe in Education 2019' and other policies including those for *Safeguarding, Behaviour, Anti-Bullying, Curriculum* and *Data Protection*.

## **Development / Monitoring / Review of this Policy**

This Online Safety policy has been developed by a working party made up of:

- Head teacher
- Online Safety lead
- Staff – including Teachers, Support Staff, Technical staff
- Governors / Board
- Parents and Carers
- Community users
- Consultation with the whole school has taken place through a range of formal and informal meetings.

## **Schedule for Development / Monitoring / Review**

<b>This Online Safety policy was approved by the Board of Directors / Governing Body / Governors Sub Committee on:</b>	<i>December 2019</i>
<b>The implementation of this Online Safety policy will be monitored by the:</b>	<i>Head teacher: Mrs S Abram Computing Subject leader: Mrs L Marston</i>
<b>Monitoring will take place at regular intervals:</b>	<i>Once per academic year</i>
<b>The Board of Directors / Governing Body / Governors Sub Committee will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:</b>	<i>Once per academic year</i>
<b>The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to online safety or</b>	<i>December 2020</i>

<b>incidents that have taken place. The next anticipated review date will be:</b>	
<b>Should serious online safety incidents take place, the following external persons / agencies should be informed:</b>	<i>LA ICT Manager, LA Safeguarding Officer, Police</i>

The school will monitor the impact of the policy using:

- *Logs of reported incidents*
- *Monitoring logs of internet activity (including sites visited) / filtering*
- *Internal monitoring data for network activity*
- *Surveys / questionnaires of students / pupils*
- *parents / carers*
- *staff*

## Scope of the Policy

This policy applies to all members of the school including staff, pupils, volunteers, parents / carers, visitors, community users, who have access to and are users of school digital technology systems, both in and out of the school.

The Education and Inspections Act 2006 empowers Head teachers to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of online-bullying or other Online Safety incidents covered by this policy, which may take place outside of the school but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data. In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate Online Safety behaviour that take place out of school.

## Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within the school.

### Governors

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about online safety incidents and monitoring reports. A member of the Governing Board Mr Roy Coulson has taken on the role of Online Safety Governor. The role of the Online Safety Governor will include:

- regular meetings with the Online Safety lead
- attendance at Online Safety Group meetings
- regular discussions with the Head teacher about the monitoring of online safety incident logs and if any issues have arisen.
- regular discussions with the Head teacher about the monitoring of filtering / change control logs and if any issues have arisen.
- reporting to relevant Governor meetings

## Head teacher and Senior Leaders

- The Head teacher has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety will be delegated to the Online Safety Lead.
- The Head teacher and another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see illegal incidents p.12 and appendix 4)
- The Head teacher and Senior Leaders are responsible for ensuring that the Online Safety Lead and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.
- The Head teacher/ Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.
- The Senior Leadership Team will receive regular monitoring reports from the Online Safety Lead.

## Online Safety Lead

- leads the Online Safety Group
- takes day to day responsibility with the Head teacher for online safety issues and has a leading role in establishing and reviewing the school online safety policies / documents
- works with the Head teacher to ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- With the Head teacher, liaises with the Local Authority
- liaises with school technical staff
- works with the Head teacher to receive reports of online safety incidents and creates a log of incidents to inform future online safety developments,
- meets regularly with the Online Safety Governor/ Head teacher to discuss current issues, review incident logs and filtering / change control logs
- attends relevant meetings
- reports regularly to the Senior Leadership Team

## Network Manager / Technical staff – Mr Neil Sillito

The school's technicians are responsible for ensuring:

- that the school's technical infrastructure is secure and is not open to misuse or malicious attack
- that the school meets required online safety technical requirements and any Local Authority/ Online Safety Policy / Guidance that may apply.
- that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed
- that they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- that the use of the network / internet / Learning Platform / remote access / email is regularly monitored in order that any misuse / attempted misuse can be reported to the Head teacher / for investigation / action / sanction

- that monitoring software / systems are implemented and updated as agreed in school policies

## Teaching and Support Staff

Are responsible for ensuring that:

- they have an up to date awareness of online safety matters and of the current school's Online Safety Policy and practices
- they have read, understood and signed the Staff Acceptable Use Policy
- they report any suspected misuse or problem to the Head teacher/ Online Safety Lead for investigation / action / sanction
- all digital communications with students / pupils / parents / carers should be on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities
- students / pupils understand and follow the Online Safety Policy and acceptable use policies (see appendix 1 and 2)
- students / pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned, pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

## Designated Safeguarding Lead / Back up DSLs

Should be trained in Online Safety issues and be aware of the potential for serious child protection/ safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- online-bullying

## Online Safety Group

The Online Safety Group provides a consultative group that has wide representation from the school community, with responsibility for issues regarding online safety and the monitoring the Online Safety Policy including the impact of initiatives. Depending on the size or structure of the school this group may be part of the safeguarding group. The group will also be responsible for regular reporting to the Governing Board.

Members of the Online Safety Group will assist the Online Safety Lead with:

- the production / review / monitoring of the school Online Safety Policy / documents.
- the production / review and requests for filtering changes.
- mapping and reviewing the online safety / digital literacy curricular provision – ensuring relevance, breadth and progression
- monitoring network / internet / incident logs
- consulting stakeholders – including parents / carers and the students / pupils about the online safety provision

- monitoring improvement actions identified through use of the 360 degree safe self-review tool

## Students / Pupils:

- are responsible for using the school digital technology systems in accordance with the Student / Pupil Acceptable Use Agreement
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on online-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

## Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through parents' evenings, newsletters, monthly online safety letters, website and information about national / local online safety campaigns / literature. Parents and carers will be encouraged to support the school in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website

## Policy Statements

### Education - pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in online safety / digital literacy is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum should be provided as part of Computing / PHSE lessons and should be regularly revisited. Staff follow the Purple Mash Scheme of Work with Online Safety being covered every half term for all year groups (Reception up to Y6). Please see Progression of Skills document on the Computing section of the website for further information regarding coverage and skills.
- Key online safety messages should be reinforced as part of a planned programme of assemblies and tutorial / pastoral activities. We dedicate a week to Online Safety. In

February of each year, staff take part in a dedicated day 'Safer Internet Day' to reinforce the importance of Staying Safe Online.

- Students / pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Students / pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making
- Pupils should be helped to understand the need for the student / pupil Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies, the internet and mobile devices
- In lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics (eg racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

## Education – Parents / Carers

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Online safety monthly letters –newsletters, web site
- Parents / Carers evenings / sessions
- High profile events / campaigns e.g. Safer Internet Day
- Reference to the relevant web sites / publications e.g. [swgfl.org.uk](http://swgfl.org.uk) [www.saferinternet.org.uk/](http://www.saferinternet.org.uk/) including those listed on the Online Safety section of the school website)

## Education – The Wider Community

The school will provide opportunities for local community groups / members of the community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- Providing family learning courses in use of new digital technologies, digital literacy and online safety
- Online safety messages targeted towards grandparents and other relatives as well as parents.

- The school website will provide online safety information for the wider community/ publish the monthly online safety newsletters.
- Supporting community groups e.g. Early Years Settings, Childminders, youth / sports / voluntary groups to enhance their Online Safety provision

## Education & Training – Staff / Volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal online safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school Online Safety Policy and Acceptable Use Agreements.
- It is expected that some staff will identify online safety as a training need within the performance management process.
- The Online Safety Lead and Head teacher will receive regular updates through attendance at external training events (e.g. from the Local Authority/ other relevant organisations) and by reviewing guidance documents released by relevant organisations.
- This Online Safety Policy and its updates will be presented to and discussed by staff in staff / team meetings / INSET days.
- The Online Safety Lead or Head teacher will provide advice / guidance / training to individuals as required. (Online Safety BOOST includes an array of presentation resources that the Online Safety coordinator can access to deliver to staff (<https://boost.swgfl.org.uk/>) –

## Training – Governors

Governors should take part in online safety awareness sessions, with particular importance for those who are members of any subcommittee / group involved in technology / online safety / health and safety /safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority/ National Governors Association / or other relevant organisation (e.g. SWGfL).
- Participation in school / information sessions for staff or parents (this may include attendance at assemblies / lessons).

## Technical – infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school currently has 35 iPads, which consist of 4 staff iPads and 31 pupil iPads. These are currently split over both key stages, 20 in KS2 and 11 in KS1. iPads are used to support learning in a variety of areas including:

- Searching the internet for a research-based lesson

· Various learning apps, most predominantly Active Learn, My Maths and Times Tables Rockstars

· Recording apps including voice memos

· Evidencing learning through digital photos and videos

Additionally, each classroom contains at least 2 desktops. Laptops are also used in the school hall, offices and PPA room.

All laptops and iPads used in school have been authorised by the Head teacher for educational purposes and run on the school's network. Each user has an individual login and password, which is updated regularly to prevent password misuse and protect data.

All users, including the pupils, sign an Acceptable Use Policy and understand that the primary purpose of the use of mobile or personal devices in a school context is educational.

The school will also need to ensure that the relevant people named in the above sections will be effective in carrying out their online safety responsibilities:

- School technical systems will be managed in ways that ensure that the school recommended technical requirements
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- The "master / administrator" passwords for the school ICT systems, used by the Network Manager (or other person) must also be available to the Head teacher or other nominated senior leader and kept in a secure place (e.g. school safe).
- Mr Neil Stillito is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes.
- Internet filtering / monitoring should ensure that children are safe from terrorist and extremist material when accessing the internet.
- The school has provided enhanced / differentiated user-level.
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement
- An appropriate system is in place for users to report any actual / potential technical incident / security breach to the relevant person, as agreed).
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.
- An agreed policy is in place for the provision of temporary access of "guests" (e.g. trainee teachers, supply teachers, visitors) onto the school systems.
- An agreed policy is in place which forbids staff from downloading executable files and installing programmes on school devices.

- An agreed policy is in place regarding the use of removable media (e.g. memory sticks / CDs / DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured

## Bring Your Own Device (BYOD)

In order to ensure safety at all times, pupils are not allowed to bring their own devices into school. If a child does bring in to school their mobile phone, this is to be accompanied by a letter from parent/ carer explaining the reasons it is in school and must be stored in the head teacher's locked drawer until the end of the school day.

## Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular, they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Written permission from parents or carers will be obtained before photographs of students / pupils are published on the school website / social media / local press.
- In accordance with guidance from the Information Commissioner's Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other pupils in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school academy into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.

- Pupil's work can only be published with the permission of the pupil and parents or carers

## Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The school must ensure that:

- It will hold the minimum personal data necessary to enable to perform its function and it will not hold it for longer than is necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing".
- It has a Data Protection Policy
- It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)
- Responsible persons are appointed / identified - Senior Information Risk Officer (SIRO) and Information Asset Owners (IAOs)
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents
- There are clear Data Protection clauses in all contracts where personal data may be passed to third parties
- There are clear policies about the use of cloud storage / cloud computing which ensure that such data storage meets the requirements laid down by the Information Commissioner's Office.

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected

- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete

## Communications

When using communication technologies, the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. Staff and children should therefore use only the school email service to communicate with others when in school, or on school systems (e.g. by remote access). Children can write comments as part of their class blog but this is monitored and agreed by the staff.
- Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and pupils or parents / carers must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Whole class / group email addresses may be used at KS1, while students / pupils at KS2 and above will be provided with individual school email addresses for educational use where required within the curriculum.
- Pupils should be taught about Online Safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

## Social Media – Protecting Professional Identity

All schools and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools/academies and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, online bully, discriminate on the grounds of sex, race or disability or who defame a third party may render the school or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through limiting access to personal information:

- Training to include: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to students / pupils, parents / carers or school staff

- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information. The school's use of social media for professional purposes will be checked regularly by the senior risk officer to ensure compliance with the Social Media, Data Protection, Communications, Digital Image and Video Policies.

## Unsuitable/ Inappropriate activities

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems. The school policy restricts usage as follows:

### User Actions:

User Actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	Promotion of extremism or terrorism				X	

Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Using school systems to run a private business				X	
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school / academy				X	
Infringing copyright				X	
Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)				X	
Creating or propagating computer viruses or other harmful files				X	
Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X	
On-line gaming (educational)		X			
On-line gaming (non-educational)			X		
On-line gambling				X	
On-line shopping / commerce				X	
File sharing			X		
Use of social media			X		
Use of messaging apps			X		
Use of video broadcasting e.g. Youtube		X			

## Responding to Online Safety Concerns

As part of ongoing child protection, the school uses CPOMS as a method of reporting concerns and incidents related to online safety. Notification of these concerns are sent directly to the senior leadership team (SLT), recorded in the online safety concern chronology and dealt with in accordance with child protection procedures (see Child Protection policy.) Where relevant, other parties such as parents, carers and external agencies may be contacted.

Where a member of staff or the wider community has an online safety concern regarding a member of staff, these should be reported to the Head teacher or Chair of Governors and will be investigated and dealt with immediately

## Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see "User Actions" above.)

## Responding to Incidents of Cyberbullying

Cyberbullying (along with all other forms of bullying) of any member of the school community will not be tolerated. There are clear procedures in place to support anyone in the school community affected by cyberbullying and all incidents of cyberbullying reported to the school will be recorded on a bullying concern log in accordance with the Anti-Bullying policy. There are clear procedures in place to investigate incidents or allegations of Cyberbullying:

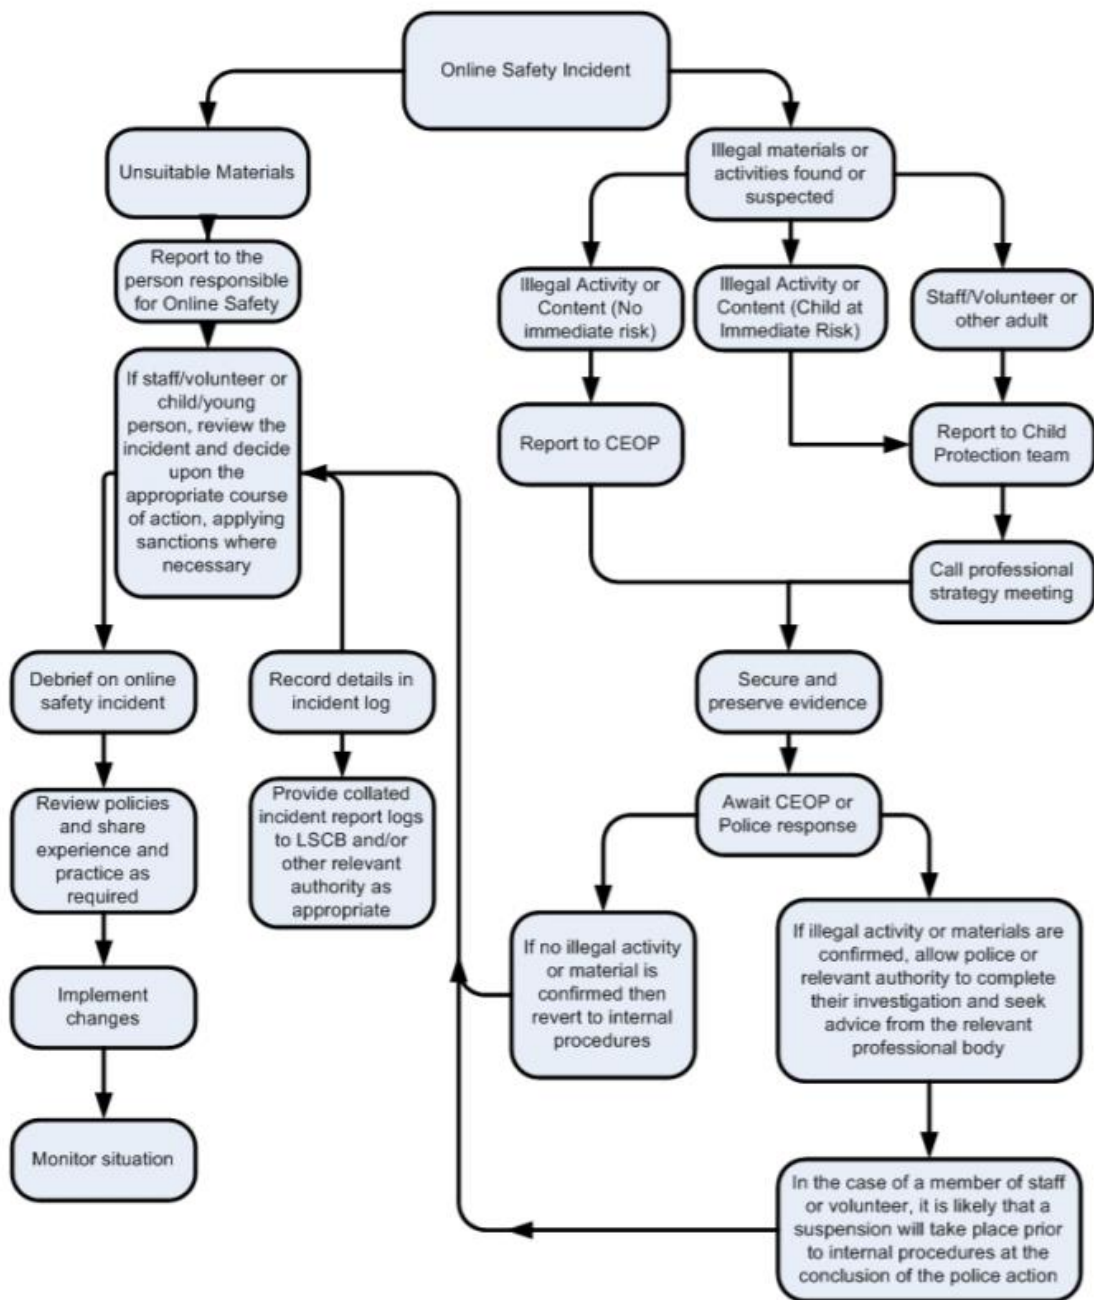

- Pupils, staff and parents/carers will be advised to keep a record of the bullying as evidence.
- The school will take steps to identify the bully, where possible and appropriate, which may include examining school system logs, identifying and interviewing possible witnesses, and contacting the service provider and the police, if necessary.
- Pupils, staff and parents/carers will be required to work with the school to support the approach to cyberbullying and the school's online safety intent

Sanctions for those involved in cyberbullying may include:

- The bully will be asked to remove any material deemed to be inappropriate or a service provider may be contacted to remove content if the bully refuses or is unable to delete content
- Internet access may be suspended at school for the user for a period of time. Other sanctions for pupils and staff may also be used in accordance to the schools anti bullying, behaviour policy or Acceptable Use Policy
- Parent/carers of pupils will be informed
- The Police will be contacted if a criminal offence is suspected

## Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right-hand side of the Flowchart for responding to online safety incidents and report immediately to the police

## Other Incidents

It is hoped that all members of the school / academy community will be responsible users of digital technologies, who understand and follow school / academy policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff involved in this process. This is vital to protect individuals if accusations are subsequently reported.

- Conduct the procedure using a designated computer that will not be used by young people and if necessary, can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
  - Internal response or discipline procedures
  - Involvement by Local Authority / Academy Group or national / local organisation (as relevant).
  - Police involvement and/or action

If content being reviewed includes images of child abuse, then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:

- incidents of 'grooming' behaviour
- the sending of obscene materials to a child
- adult material which potentially breaches the Obscene Publications Act
- criminally racist material
- promotion of terrorism or extremism
- other criminal conduct, activity or mate

**Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the school and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

## School Actions & Sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures.

**This policy was adopted by the Governing Body in January 2020**

**It will be reviewed again in December 2020**

Signed:

# Coppull St John's C.E Primary School

## Acceptable Use Policy – EYFS & KS1

At Coppull St John's C.E Primary School we understand the importance and benefits of using technology to enhance children's learning and its role in computing as a subject. However, we also recognise that safeguards need to be in place to ensure children are kept safe at all times. Therefore, it is important that children are aware of their roles and responsibilities when using technology at school. Please could parents/carers read and discuss this policy with their child to ensure they understand their roles and responsibilities when using technology at school and then sign for our school records.

**This is how we stay safe when we use computers:**

- I will ask a teacher or suitable adult if I want to use the computers / tablets
- I will only use activities that a teacher or suitable adult has told or allowed me to use
- I will take care of the computer, iPads and other equipment
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong
- I will tell a teacher or suitable adult if I see something that upsets me on the screen
- I know that if I break the rules I may not be allowed to use a computer / iPad again in the future

## Acceptable Use Policy – KS2

### School Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Agreement is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems at risk and will have good access to digital technologies to enhance their learning and will, in return, expect pupils to agree to be responsible users.

### Acceptable Use Policy Agreement

- I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my own personal safety:

- I understand that the school will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc)
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it online.
- I understand that everyone has equal rights to use technology as a resource and:
- I understand that Coppull St John's systems and devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.

- I will not use Coppull St John's devices for online gaming, online gambling, internet shopping, file sharing, or video broadcasting (E.G YouTube), unless I have permission of a member of staff to do so.
- I will act as I expect others to act towards me.
- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission.
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not take or distribute images of anyone without their permission.
- I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school:
- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person / organisation who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings.

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work.
- Where work is protected by copyright, I will not try to download copies (including music and videos).
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.
- I understand that I am responsible for my actions, both in and out of school:
- I understand that there will be consequences if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyber-bullying, use of images or personal information).
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, there will be consequences for my actions. This may include loss of access to the school network / internet, contact with parents and in the event of illegal activities involvement of the police.

Please complete the sections on the next page to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school systems and devices.

# Coppull St John's C.E Primary School

## Acceptable Use Policy – KS2

At Coppull St John's C.E Primary School we understand the importance and benefits of using technology to enhance children's learning and its role in computing as a subject. However, we also recognise that safeguards need to be in place to ensure children are kept safe at all times. Therefore, it is important that children are aware of their roles and responsibilities when using technology at school.

Please could parents/carers read and discuss this policy with their child to ensure they understand their roles and responsibilities when using technology at school and then sign for our school records.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own equipment out of the school in a way that is related to me being a member of this school.

## **Appendix 2 – Staff/ Volunteer Acceptable Use Agreement**

### **School Policy**

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This Acceptable Use Policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for pupils' learning and will, in return, expect staff and volunteers to agree to be responsible users.

### **Acceptable Use Policy Agreement**

- I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.
- I recognise the value of the use of digital technology for enhancing learning and will ensure pupils receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will be professional in my communications and actions when using school ICT systems:
- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images.
- I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies.
- I will only communicate with pupils and parents / carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices (laptops / tablets / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment.
- I will also follow any additional rules set by the school about such use.
- I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others.
- I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the school data protection policy. Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based Protected and Restricted data must be held in lockable storage.
- I understand that data protection policy requires that any staff or pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school / academy policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work. Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that I am responsible for my actions in and out of the school.
- I understand that this Acceptable Use Policy applies not only to my work and use of school digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

## **Appendix 3 –Governor Acceptable Use Agreement**

### **School Policy**

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This Acceptable Use Policy is intended to ensure:

- that governors will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The school will try to ensure that governors will have good access to digital technology to enhance their work and will, in return, expect governors to agree to be responsible users.

- I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will be professional in my communications and actions when using school ICT systems:
- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices (laptops / tablets / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment.
- I will also follow any additional rules set by the school about such use.
- I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.

- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others.
- I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the school data protection policy. Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based Protected and Restricted data must be held in lockable storage.
- I understand that data protection policy requires that any staff or pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school / academy policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work. Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that I am responsible for my actions in and out of the school.
- I understand that this Acceptable Use Policy applies not only to my work and use of school digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to the Headteacher/ Chair of Governors or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

#### **Appendix 4 – Guidance: What do we do if?**

##### **An inappropriate website is accessed unintentionally in school by a teacher or child.**

1. Play the situation down; don't make it into a drama.
2. Report to the head teacher/e- safety officer and decide whether to inform parents of any children who viewed the site.
3. Inform the school technicians and ensure the site is filtered (Report to: BT Lancashire Services).
4. Inform the LA if the filtering service is provided via an LA.

##### **An inappropriate website is accessed intentionally by a child,**

1. Refer to the acceptable use policy that was signed by the child, and apply agreed sanctions.
2. Notify the parents of the child.
3. Inform the school technicians and ensure the site is filtered if need be.
4. Inform the LA if the filtering service is provided via an LA.

##### **An inappropriate website is accessed intentionally by a staff member.**

1. Ensure all evidence is stored and logged
2. Refer to the acceptable use and staffing policy that was signed by the staff member, and apply disciplinary procedure.
3. Notify governing body.
4. Inform the school technicians and ensure the site is filtered if need be.
5. Inform the LA if the filtering service is provided via an LA.
6. In an extreme case where the material is of an illegal nature:
  - a. Contact the local police and follow their advice.

##### **An adult uses School IT equipment inappropriately.**

1. Ensure you have a colleague with you; do not view the misuse alone.
2. Report the misuse immediately to the head teacher and ensure that there is no further access to the device. Record all actions taken.
3. If the material is offensive but not illegal, the head teacher should then:
  - Remove the device to a secure place.
  - Instigate an audit of all ICT equipment by the schools ICT managed service providers or technical teams to ensure there is no risk of pupils accessing inappropriate materials in the school.
  - Identify the precise details of the material.
  - Take appropriate disciplinary action (undertaken by Headteacher).
  - Inform governors of the incident.
4. In an extreme case where the material is of an illegal nature:
  - Contact the local police and follow their advice.
  - If requested to remove the device to a secure place and document what you have done.

All of the above incidences must be reported immediately to the head teacher and online-safety officer.

##### **A bullying incident directed at a child occurs through email or mobile phone technology, either inside or outside of school time.**

1. Advise the child not to respond to the message.
2. Refer to relevant policies including online-safety, behaviour and PHSE, and apply appropriate sanctions.
3. Secure and preserve any evidence through screenshots and printouts.
4. Inform the sender's e-mail service provider if known.
5. Notify parents of all the children involved.
6. Consider delivering a parent workshop for the school community.

7. Inform the police if necessary.
8. Inform other agencies if required (LA, Child protection)

**Malicious or threatening comments are posted on an Internet site (such as social networking) about member of the school community (including pupils and staff).**

1. Inform and request the comments be removed if the site is administered externally.
  2. Secure and preserve any evidence.
  3. Send all the evidence to CEOP at [ww.ceop.gov.uk/contact\\_us.html](http://ww.ceop.gov.uk/contact_us.html).
  4. Endeavour to trace the origin and inform police as appropriate.
  5. Inform LA and other agencies (child protection, Governing body etc).
- The school may wish to consider delivering a parent workshop for the school community

**You are concerned that a child's safety is at risk because you suspect someone is using communication technologies (such as social networking sites or gaming) to make inappropriate contact with the child.**

1. Report to and discuss with the named child protection officer in school and contact parents.
2. Advise the child on how to terminate the communication and save all evidence.
3. Contact CEOP <http://www.ceop.gov.uk/>
4. Consider the involvement police and social services.
5. Inform LA and other agencies.
6. Consider delivering a parent workshop for the school community.

**You are concerned that a child's safety is at risk because you suspect they are playing computer games that are inappropriate or certificated beyond the age of the the child.**

1. Report to and discuss with the named child protection officer in school and contact parents.
2. Advise the child and parents on appropriate games and content. You may want to use template letters to inform all or targeted parents.
3. If the game is played within school environment, ensure that the technical team block access to the game
4. Consider the involvement social services and child protection agencies.
5. Consider delivering a parent workshop for the school community.

**You are aware of social network posts and pages created by parents about the school. While no inaccurate information is posted, it is inflammatory and disruptive and staff are finding it hard not to respond.**

1. Contact the poster or page creator and discuss the issues in person
2. Provide central staff training and discuss as a staff how to behave when finding such posts and appropriate responses.
3. Contact governing body and parent association
4. Consider delivering a parent workshop for the school community.

All of the above incidences must be reported immediately to the headteacher.

Children should be confident in a no-blame culture when it comes to reporting inappropriate incidents involving the internet or mobile technology: they must be able to do this without fear.
