

DIG DEEPER, LOOK CLOSER, THINK BIGGER

Friday 2<sup>nd</sup> October

Dear Parents,

I am writing to let you know about some of the events that will be happening at school this October to mark Black History Month.

We will share the aims of Black History Month and celebrate the enormous contribution Black Britons have made to our vibrant and diverse society.

All classes will be completing topic work based on Black History, with the children studying important historical characters and important events such as the S.S. Windrush, its arrival in the U.K. and its specific relevance to the Brixton Community. The children will learn about and celebrate contemporary black figures who have enriched all our lives.

If you have a story or knowledge relating to Black History Month we would love you to share it with your child's class. You can email your child's teacher with stories and images and these can be shared in class.

If you wish to support your child's learning there are some excellent websites. The main one <https://www.blackhistorymonth.org.uk/>

We seek to share their mission for Black History which is to:

**Dig deeper, look closer and think bigger.**

We look forward to an exciting and educational month.

Thank you for all your support in your child's learning.

M. M. Calvey & G. Jenson
