# Key Stage 1

### Phonics Game - Supporting decoding to read

Practise reading real and nonsense words containing tricky digraphs and trigraphs along with alternative sounds such as 'ay, ai, eigh'. Practise spotting tricky sounds and adding sound buttons to them before decoding.

### Inference – Developing Understanding

Role play the story, using facial expressions to demonstrate how a character is feeling.

Draw a love heart to record the feeling. Use a thought bubble to consider what the characters might be thinking – relating this to their feelings. Lastly think about or find words that the character says to show their feelings.

### Language – Developing Understating

Find new words on the page before reading. What could this word mean? Read the sentence together and try to replace the word with something else to support understanding, using the context to develop meaning. Collect new words and try to use them in your everyday speech.
