Rhyming and Alliteration Games

Game 1 - Silly Soup

Using a mixing bowl can you make silly soup by adding objects that start with the same sound (alliteration) or that rhyme?

Test your child by adding in objects that would not match the pattern to see if they can explain why it shouldn't go in their silly soup.

Game 2 - Sound hunt

Show your child a given sound such as 's' (start with letters that are in their name so that they can begin to become familiar with these sounds). Say the sound together and go hunting for objects and pictures that start with the same sound. This supports children's ability to hear sounds and will support later reading and writing.
