Summer Fair Success

If you went to our Summer Fair this year, you may have noticed some special visitors, such as ex-students, members of the PTA, (Parent Teacher Association) and even a special, furry visitor, Fudge the pony! During the time span, there were dancers that entertained visitors with their excellent dancing skills. There were also many fun and exciting stalls, including; hook-a-duck, tin-can alley, marshmallow roasting, a bouncy castle, and a Ferrari race car! You could purchase homemade lemonade, inflatables, interesting books and some delicious food. In total, we raised £2984.87 which will be put towards new interactive whiteboards and new iPads to give the students an educational boost.

Toilets

The school council have been discussing the standard of our toilets. We have talked about people feeling safe and unsafe in assembly. We all shared the things that are good

about school and the one thing we all want to improve is the toilets. Because of this, we have decided that we are going to start to have toilet monitors. We are also going to create posters to remind users how to keep the toilets clean - flush the toilet, please! All of this will hopefully encourage children to try and flush the toilets and keep them tidy.

Wellbeing Garden

In the school wellbeing garden, James (the wood sculptor) has been working very hard to create lots of sculptures including an owl, two benches and a few toadstools. We would like to give the neighbours and volunteers a big 'thank you' for helping to make the garden so beautiful on ground force day!

Challenge to Complete this Term

In our School Council meetings, we have talked about doing kind things for others or helping the environment.

Your Challenge: Can you complete a good deed for someone else or to help our environment? We would love to see your pictures!
