

# Learning together, supporting each other.

## School Improvement Targets 2025/26

- *To further refine Coupe Green Curriculum design so that important key knowledge is deepened and misconceptions challenged.*
- *To implement Coupe Green Behaviour Curriculum to further develop behaviour for learning.*
- *To implement active learning strategies so that children deepen their understanding and critical thinking skills.*

*The long-term curriculum planning documents have been reviewed and refined to reduce the taught content and give more time to deepen key knowledge.*

*The long-term curriculum planning documents have been reviewed and refined to reduce the taught content and give more time to deepen key knowledge.*

*Behaviour standards will be consistently high across school and children will uphold school values, no matter which adult is present.*

*Teachers' planning considers potential misconceptions.*

*Learning environments will be effective and promote positive behaviour for learning from all children.*

*Children will develop a higher level of resilience and demonstrate a growth mindset.*

*Questioning will be used to promote inquisitive minds.*

*Children are clear about what expected behaviour looks like and travel around school in an orderly manner, showing respect and care for their learning environment.*
